Progress Test 3: Units 5 & 6

READING

Read the fact sheet and complete each sentence with a word from it.

Changing Weather

All around the world, the weather is changing. The temperature of the Earth is now 1°C hotter than it was 100 years ago. Some people think, 'That's great! We'll have nicer weather!', but that isn't true.

Sun

In some places, there will be no rain and it will be very hot. Plants, trees and animals will die, and there will be more deserts. People can't live in deserts with no water.

Ice

There will also be more water because the sea ice in the Arctic is melting and the water will go into seas around the world. Without ice, some sea animals won't have homes or food and they will die too.

Rain

In other places, it will rain ... and rain ... and rain ... and there will be a lot of water. In towns and cities near the sea, some roads and buildings will be under the water.

Our Earth

So what can we do? We must look after the Earth and save the plants, the animals and ... ourselves!

- 1 The _____ of the Earth is going up.
- 2 A _____ is a very hot place with no rain.
- 3 Roads and _____ will be under water in some towns and cities.
- 4 Some Arctic animals need sea _____ to make their homes.
