General Notes

- When planning, teachers are to refer to the standards found in the teacher's book.
- The teaching package components are full and extensive (refer to the introduction in the Teacher's Book for more details). Teachers are requested to make use of the online resources; interactive CD, tests (for assignment & enrichment purposes), etc.
- Key competencies are woven into the activities, and students should be acquiring and developing them. It must also be understood that aspects of several competencies may overlap. For example, problem-solving may also involve other competencies such as creative and critical thinking, inquiry and research, communication, as well as cooperation, and participation, depending on the type of activity.
- Not all the exercises in the workbook can be covered in class, so teachers need to be flexible and careful about which exercises should form the focus of classroom study and which ones could be done as homework or quizzes.
- The writing section in the WB should be covered in class.
- Reading and writing lessons to be covered in **two** blocks.
- "Culture Pages" and "Tasks" are enrichment materials. (Not to be included in the exams).
- A module test should be conducted after each module.
- The speaking and the grammar reference sections are essential parts in the textbook. Thus, teachers are requested to exploit them appropriately.
