A - City and country

Dubai is the most beautiful city and one of the most crowded cities in the UAE. It's quite noisy of colourful streets full of busy people.It's very modern too with high-rise office buildings and amazing towers.There is also an ancient part of the city,which is very popular with tourists.

Khor Fakkan is smaller than Dubai.It is a peaceful place with huge mountains and green hills.I love walking with my family at the clean beach.

B - Plant a tree and change the future

Planting trees is a great way to help the environment.Trees release oxygen and use CO_2.This makes our air cleaner.

Children at school in San Luis,Argentina,have been learning about carbon footprints and energy saving,and have been planting 200,000 trees in 22 towns across San Luis.

" More trees,More Good" campaign wanted to plant six million trees over the next 50 years in the UK.

Trees are important to make homes for animals and to make the countryside look beautiful.

C - My favourite place

Eilean Donan Castle is the most famous castle in Scotland.It is on a lush,green island,surrounded by water and huge mountains.

There are large deer on the hills and lots of colourful birds.There are also dolphins and otters in the water.You may see the Northern Lights that turn the sky green,purple and orange.

I think this is the most amazing place I've ever seen.I would like to walk on the mountains and sleep in the castle.I think it would be very exciting.

write a paragraph comparing life in the past and life now : (83 words)

Life in the past is different from life these days, in the past life was very simple. People didn't have big houses and cars. People lived in small houses and all the family lived together with grandparents. They used camels and donkeys to travel. There were no modern schools and hospitals.

These days, people have more money, cars and big houses. People use cars, buses, trains and planes to travel. These days we have modern schools and hospitals, and people are more educated.

Write a paragraph about our carbon footprint . (73 words)

Our carbon footprint is how much CO_2 one person makes each year.

when we use energy, we produce a lot of harmful CO_2 gas, this gas pollute the air and makes the Earth hotter, and this causes the ice at the poles to start melting, finally this causes floods.

We can reduce our carbon footprint by walking instead of using cars, recycle materials, not to leave lights on, and plant trees in our gardens.

Write a descriptive paragraph about your favorite place : (52 words)

My favorite place is the beach. I never get tired of looking at the beautiful, bright blue sea. I like the smell of the fresh salty air, hear the sound of waves, and I enjoy feeding the fish there.

In my opinion, the beach is the most beautiful place in the world.

write a paragraph comparing between life in a city and a country . (69 words)

Life in the city is very different from life in the country. It is very crowded and noisy in the city because there are lots of people. You see tall office buildings in the city instead of trees, lots of cars, modern shops and buildings.

Country is more peaceful , there are lots of green fields, huge mountains, beautiful lakes and lots of forests with tall trees in the country.

write a paragraph about the place where you live. (65 words)

I live in a city, there are a lot of cars and buses in my city, a lot of office buildings, modern shops, and a lot of people; this make it crowded all the time . living in the city is really noisy.

In the other hand life in the city is easy, you can go shopping any time, you find a job close to your house and a good medical care.
