Lila's New Glasses

Lila was a girl who had trouble seeing. She loved to ride her bike, but she couldn't see well enough to know which way to turn. She loved to play soccer, but she could never see when the ball was coming her way! Most of all, Lila loved to go to school... but she always had a very **hard** time reading the lesson on the blackboard. One day Lila's mother took her to the eye doctor. The eye doctor looked at Lila's eyes and instantly knew that Lila was going to need a pair of glasses. At first, Lila was very sad that she was going to have to wear glasses. The doctor told her that glasses help people see, and that once she had a pair of her own, she would be able to do all of the things that she loved! Lila decided that maybe it wouldn't be so bad after all. Once Lila put on her glasses, she could not believe all the amazing things there were to see! She could ride her bike up and down the neighborhood. She could play soccer with her friends... and most exciting of all, Lila could finally read the lesson on the blackboard at school. Lila was so happy to finally be able to see, and wore her pair of glasses every single day.

Reading Comprehension

***Read the text then answer the following questions.**

Jeff was trying to save up money for a vacation his family was planning to take. He decided to find a summer job. It took several days of thinking. But finally, Jeff thought of an idea. It was a hot, dusty summer, and people's cars would be getting dirty. He would offer to wash cars. The first step in setting up his business was to decide what supplies he would need. He was definitely going to require soap, wax, brushes, buckets, and towels. Jeff's dad gave him permission to use the garden hose if he was careful. By the time Jeff was ready to open for business, he had spent \$25.00. If he charged \$5.00 for each car wash, he would have to wash more than five cars to make money. Jeff and his friends posted signs everywhere in the neighborhood. When people learned about Jeff's business, many came to have their cars washed. In a few weeks, Jeff had earned \$100.00.

Reading Comprehension

***Read the text then answer the following questions.**

Almost everything about elephants is big. They are the largest animals that live on land. There are two kinds of elephants: The Indian elephant and the African elephants. A male, African elephant can weigh up to six thousand kilos. Elephants can be up to four meters tall. Elephants need to live in very large areas because they eat and drink so much. Every day, elephants spend about 16 hours eating. They eat up to 200 kilos of food. They can drink over 250 liters of water. Elephants are mammals, so a female elephant gives birth of one calf after 22 months.

Elephants have very big, very thin ears. Elephants use their ears to cool themselves down. An elephant's trunk can smell food, water and predators. Elephants need very strong legs to support their heavy bodies. Elephant tusks are really long, curved teeth. Elephants use their tusks to dig food and water and to fight.

Reading Comprehension

***Read the text then answer the following questions.**

Polar bears are found in the frozen wilds of the arctic, in Canada, Alaska, Greenland, Russia and Norway. These are big bears. Adult polar bears can measure over 2.5 m long and weigh around 680 kg. Their **huge** body and weight make them the largest living carnivores (meat eaters) on Earth.

Polar bears are adapted to survive in cold weather. They have thick fur that protects their bodies from the frozen air. These mammals have the best sense of smelling. They can smell a prey from up to 16 km away!

Polar bears can swim at around 10 km /h. Polar bears aren't quick enough to catch seals in open water.

Female polar bears give birth in November or December. At birth, the cubs are only around 30 cm long and weigh around half a kilogram.

Sadly, polar bears are in danger. The biggest problem to polar bears is climate change.
