Read the text the answer the following:

1. Water is transparent, tasteless and colorless. Water is very important in our life. It is a great wealth that we must save. We need it for drinking, cooking, watering fields, gardens and getting electricity. We shouldn't use it carelessly. Careless people use water badly. Some of them use too much water to wash their cars. Others leave their taps on day and night.
2. More than 75% of the surface of the earth is covered with water. It's found in nature in forms of ice, snow, liquid or steam. All **humans**, animals and plants need water to survive. People get water from the rain, snow, rivers, streams, lakes and underground wells.
3. Water on Earth moves in a water cycle. When the sun heats the oceans and seas, water evaporates. Then water vapor rises to the sky and forms clouds. After that, drops of water fall from the clouds into oceans and sea as rain.
4. Children should learn how to use water wisely. Parents and teachers should teach their children that they should save every drop of water because it can save a life or help us to change desert into green land to grow more food.
5. We all must do our best to save water we have to eat and drink but never waste and as our prophet Mohamed "peace be upon him" said, "Never waste in water even if you are on running river."

1. What is the PURPOSE of the above text?

- A. to get the readers understand the importance of water

The Natural History Museum in London is famous all over the world.

Although the building is old, it's a beautiful museum, where visitors can have fun and learn many new things about animals, insects, prehistoric life, science and nature.

The Dinosaur Gallery is one of the most interesting things to see at the museum. The collection of dinosaur fossils at the museum is amazing! Visitors can see fossils and models of many different dinosaurs. When visitors enter the museum they can see 'Dippy', the most famous dinosaur in the museum. Dippy is a Diplodocus dinosaur. The fossils aren't real, but are a copy of the real fossils that train workers found in 1898. The Diplodocus dinosaur was one of the longest dinosaurs to walk the Earth. Charity

My name is Hassan. When I was 15 years old, I had an experience of helping a blind man cross the street. That night I saw a man getting out of his house then he stood on the sidewalk. The traffic light was green, he could walk forward, but he didn't. He was just standing there and made no actions. I didn't know why he was standing without crossing.

I decided to walk over to him and see what was happening. I felt confused until I walked next to him. I knew he was blind because he was wearing sunglasses and holding a white stick.

I saw a sign around his neck. The sign said "I can't hear and I can't see; please help me cross the street. Tap me on the shoulder." I knew I must help him. So I tapped him on the shoulder, and then he put his left hand on my right shoulder and I took him across the street. The man was so quiet; the only thing I could hear was the sounds of our steps. It was a cold night too.

When we got across the street, he shook his head as a sign of thanks, and started walking up to his flat. I never forget that night because when you help, you are a human.

Read the text the answer the following:

Almost everything about elephants is big. They are the largest animals that live on land. There are two kinds of elephants: the Indian elephant and the African elephant. A male, African elephant can weigh up to six thousand kilos. Elephants can be up to four meters tall. Elephants need to live in very large areas because they eat and drink so much. Every day, elephants spend about 16 hours eating. They eat up to 200 kilos of food. They can drink over 250 liters of water. Elephants are mammals, so a female elephant gives birth of one calf after 22 months. Elephants have very big, very thin ears. Elephants use their ears to cool themselves down. An elephant's trunk can smell food, water and predators. Elephants need very strong legs to support their heavy bodies. Elephant tusks are really long, curved teeth. Read the text the answer the following:

It was a hot day. A cap seller was going to a market to sell his caps. After walking in the forest, he was so tired. He slept under a big tree. There was a big family of monkeys living in this tree. The monkeys saw the boy sleeping and wearing a cap. They came down, opened his bag and took the caps and wore the caps on their heads.

Then, they climbed up on the high branches of the tree. After some time, the cap seller woke up. He found his caps not there. The caps were missing. He felt very gloomy and looked around for them. All of a sudden, he looked up and saw the monkeys wearing the caps. He had a good idea. He took off his cap and threw it on the ground. He knew that monkeys are good imitators, they will do the same as you do. The monkeys also threw their caps down. He collected all his caps and went his way to the fair.
