Mid of Second Semester

A 3D rendered image of a red dart hitting a target. The target has concentric red and white rings. The dart is red with a silver-colored barrel and a red fletching. It is shown in the process of hitting the target, with a large splash of red and white fragments around the point of impact. A white rectangular box with a black border is positioned over the dart's barrel, containing the word "Grammar" in a bold, black, sans-serif font.

Grammar

Conditional Sentence(First Type)

First Conditional

Recycling

What is recycling?

Recycling is taking trash that we no longer need and turning it into new products. There are many things that can be recycled. Plastic, glass, metal, paper and electronics are materials that can be recycled. Many things are made from these materials. Soda cans, plastic milk cartons, newspapers, old computers and cardboard boxes can be recycled. These are products that can be easily recycled!

The Recycling Loop

The **recycling loop** is a symbol for recycling. It is three arrows that form a loop. Each arrow represents a different step in recycling. One arrow represents collecting things to recycle. The next loop is for processing the old materials and making new things. The third arrow is for buying items that are made from recycled materials. Each step is very important in recycling.

Why should we recycle?

There are many reasons we should recycle. When things are recycled there is less trash. This means there is less in dumps and **landfills**. When we recycle we use things over and over again. This protects earth's **natural resources**. Recycling causes less pollution than creating new items. This helps keep our environment clean.

1- What is the text mainly about:

2- What is the sign of recycling?

- 1- heart
- 2- rectangle
- 3- loop

3- What does recycling cause?

- 1- pollution
- 2- less pollution
- 3- garbage

4- Why should we recycle?

5- What can we recycle?
