The World's Online Marketplace –eBay!

- 1 Do you like shopping online? Do you like finding a bargain or a good buy? Then eBay is for you. EBay is the world's Online Marketplace. It is a place to buy and sell almost anything. With over 18 million members, eBay is more popular than any other shopping site on the internet.
- 2 People trade millions of different things on eBay's website: from cars to electronics to musical instruments. Here is how it works: a member puts an advertisement for an item on the website. Other members **bid**, or propose money, for the item. The person who bids the most money gets to buy the item. Then the seller sends the item to the buyer.
- 3 "Selling on eBay is easy", says Mike Stacks. He is the owner of a company that sells used computers. And he adds, "I make friends on eBay. I think it's a very friendly place". But some people don't like it. "I think the traditional way to shop is better", says Jenny Feng, a student. "I want to touch things- not see a picture of them". "I may also lose my money when shopping online", she added.
