

# Gr.6 T3 Writing Revision

## Topic : Animals

### 1. Opinion Question (5 marks)

*Do you think people should take care of animals? Why or why not?*

**Response:**

*Yes, people should look after animals because they help nature, like rabbits in forests .*

*Also, pets like cats need homes. If we protect animals, our world will be healthier.*

---

### 2. Writing Plan (5 marks)

*Write a short essay ( around 30 words) about why animals are important? Give two reasons and suggest one way to protect them.*

**Response:**

**My plan:**

- **Introduction:** Animals are useful (forest animals, pets).
  - **Reason 1:** They keep nature balanced (e.g., rabbits eat plants).
  - **Reason 2:** Pets give us joy (e.g., cats and dogs).
  - **Solution:** Protect forests and adopt pets.
  - **Conclusion:** Helping animals helps everyone.
- 

### 3. Essay (25 marks)

*Animals are very important for many reasons. First, wild animals like rabbits and birds keep forests healthy. Second, pets like cats make people happy. Also, some animals, like bees, help plants grow. To protect them, we must not cut too many trees and keep water clean for them. If everyone helps, animals will be safe.*

---

### 4. Inference & Justification (5 marks total)

*In the forest, rabbits live in groups to stay safe. Their white tails are not just for show—when they sense danger, like a fox nearby, they flick their tails quickly. This bright movement warns other rabbits to hide in the brush or under leaves. Scientists say this is how rabbits communicate without sound. Meanwhile, cats, even pet cats, still have wild instincts. They hunt small animals like mice, which helps control pests. However, cats sometimes harm birds, so owners should keep them indoors at night. Forests are home to many animals, and when people cut down trees, animals lose their homes. For example, birds need trees for nests, and squirrels store food in them. Protecting forests means protecting all these creatures.*

- **Inference Question (2 marks):**

*Why do rabbits flick their tails, and what happens next? Justify your answer from the topic.*

**Answer:** *Rabbits flick their tails to warn others of danger; then they hide in bushes.*

- **Justification (3 marks):**

*The text says rabbits flick their tails when they see a predator (like a fox), and other rabbits react by hiding in the brush. This shows it's a warning signal.*

## Topic : People

---

### 1. Opinion Question (5 marks)

*Are family members like uncles and aunts important in our lives? Why or why not?*

**Response:**

*In my opinion, family members like uncles and aunts are very important in our lives because they help us, give us advice, and make us feel loved. A close family makes life happier and safer.*

---

### 2. Writing Plan (5 marks)

Write a short essay ( about 30 words) on why family is important to us and how we can show love to them.

**Response:**

**My plan:**

- **Introduction:** Family includes parents, uncles, aunts.
  - **Body:**
  - **Reason 1:** They support us (e.g., aunts give advice).
  - **Reason 2:** They teach us (e.g., uncles share skills).
  - Show love by helping and spending time.
  - **Conclusion:** Strong families make strong communities.
- 

### 3. Essay (25 marks)

*Family includes not only our parents, but also our uncles, aunts and grandparents, too. Family is important for many reasons. First, uncles and aunts help us learn new things, like cooking or fixing toys. Second, they make us feel safe and loved. We can show love by visiting them often, helping them and by listening to their interesting stories. When families are close, everyone is happier.*

### 4. Inference & Justification (5 marks total)

#### **Text:**

*In modern families, uncles and aunts play special roles. Unlike parents, they often become friends who give advice without strict rules. For example, an aunt might teach her niece how to bake, while an uncle could show his nephew how to repair a bicycle. These small moments create beautiful memories. Today, many families live far apart, but technology helps them stay connected. Video calls and messages keep relationships strong. However, nothing replaces face-to-face time. Studies show that children who spend time with extended family grow up more confident and interested in learning. Traditions, like holiday gatherings, are also important. They give everyone a chance to share stories and laughter. Even simple acts, like helping an aunt carry groceries or writing a letter to an uncle, can strengthen bonds. Family love is not about big gifts but small, regular acts of care.*

- **Inference Question (2 marks):**

*How do uncles and aunts help children, according to the text? Justify your answer from the text .*

**Answer:** *Uncles and aunts help children by teaching them useful life skills, such as how to bake or fix a bicycle. They also offer advice in a friendly and relaxed way, without the pressure or strict rules that parents might have.*

- **Justification (3 marks):**

*The text says aunts might teach baking and uncles could show how to repair things. It also mentions they give advice "without strict rules," which makes them different from parents.*

## Topic : Science

### 1. Opinion Question (5 marks)

*Do you think science is important in our daily lives? Why or why not?*

**Response:**

*Certainly, science is very important because it helps us understand the world. Scientists invent medicines, grow better plants, and explain why things change, like day turning to dark. Science makes life easier and safer.*

---

### 2. Writing Plan (5 marks)

*Write a short essay (30 - 40 words) about how science helps us and one way it could improve our future.*

**Plan:**

- **Introduction:** Science studies nature and solves problems.
  - **Example 1:** Scientists create medicines to heal sick people.
  - **Example 2:** They help plants grow better to feed everyone.
  - **Future Idea:** Science could stop climate change.
  - **Conclusion:** Supporting scientific research.
- 

### 3. Essay (25 marks)

*Science transforms our world by solving critical problems. First, it develops medicines that cure diseases and save lives. Second, it improves agriculture to grow healthier plants and feed growing populations. Looking ahead, science may reverse climate change through clean energy. Supporting scientific research ensures a brighter future for all humanity.*

---

### 4. Inference & Justification (5 marks total)

#### "The Last Battery"

*The dust storm had lasted 12 days when Dr. Raja found the old solar battery—the only one left in the abandoned lab. Her fingers trembled as she connected it to the village's dying water pump. "This might give us three more hours," she told the crowd.*

*Just then, the battery flickered. A warning light blinked red. The villagers held their breath—without power, the crops would wither by morning. Little Amir tugged Raja's sleeve. "What if we—" he began, pointing to the broken wind turbine on the hill...*

---

- **Inference Question (2 marks):**

*What will likely happen next? Explain your prediction. Then Justify your answer from the text .*

**(Sample Answer):**

*Amir will suggest using parts from the wind turbine to fix the battery. The villagers will combine solar and wind power to save the crops.*

- **Justification(3 marks)**

*Amir points to the broken wind turbine, showing he's thinking about alternative solutions. The battery is failing, so they need another power source quickly .*

## Topic : Food and drink

### 1. Opinion Question (5 marks)

*Some parents think children should help with cooking, while others believe it's too dangerous. Give your opinion .*

**Response:**

*I think kids should cook because it's fun! I help make sandwiches and learn to measure ingredients. My mom watches me so I stay safe.*

---

*Write a short essay ( around 30 words ) about your favorite food . Describe how it tastes, who makes it, and a memory you have with it. End with what you'd like to cook next.*

### 2. Writing Plan (5 marks)

**Plan:**

1. **Topic Sentence:** Name the food
  2. **Detail 1:** Describe it
  3. **Detail 2:** Who makes it?
  4. **Detail 3:** Special memory
  5. **Closing:** Future wish
- 

### 3. Essay (25 marks)

#### My Favorite Food

*I love pizza because it's cheesy and crunchy. Also, Mom adds veggies to make it healthy. Every Friday, we make it together. In fact, cooking with family is the best part! . I would like to learn to bake cookies.*

---

### 4. Inference & Justification (5 marks total)

#### "The Missing Cookie Recipe"

*At the school bake sale, Mia's famous chocolate cookies always sold first. But today, her cookies tasted... salty! "That's impossible!" she said, checking her recipe book. The page was smudged—someone had changed the sugar amount!*

*Just then, she saw her brother Sam running away with a blue notebook. He stopped near the playground and...*

#### 1. Inference Question (2 marks):

*What do you think will happen next in the story? Explain in 2-3 sentences.*

##### **Example Answer:**

*Mia will chase Sam because he has her real recipe in the blue notebook. She'll find out he changed it as a joke. In the end, they'll fix the recipe together and make new cookies.*

#### 2. Justification(3 marks)

*Give two clues from the story that helped you make your prediction. Write in full sentences.*

##### **Example Justification:**

- *Clue 1: Sam is running away with a notebook, which probably has the real recipe.*
  - *Clue 2: The recipe book was smudged, showing someone changed it on purpose.*
- 

# Topic : Sports and leisure activities

## 1. Opinion Question (5 marks)

(Some children like to play team sports, while others prefer solo activities like swimming).  
What do you think is better? Give 2 reasons.

### **Sample Answer:**

*Team sports are better because you make friends. I love soccer—we learn to cooperate! Also, it's more fun than practicing alone.*

---

Write a short essay ( 30 words ) about your favorite sport or leisure activity. Describe what you like about it, where and when you do it, and include a special memory. Finish by sharing a future goal related to this activity.

## 2. Writing Plan (5 marks)

### 1. Introduction (Topic Sentence)

- Name the activity + my feeling

### 2. Body (3 Details)

- **Detail 1 (Description):** "fast and exciting"
- **Detail 2 (Where/When):** "play at the park every Saturday"
- **Detail 3 (Memory):** "scored my first point last month!"

### 3. Conclusion (Future Goal)

- looking ahead:  
"want to join a team next year"
- 

### 3. Essay (25 marks)

My favorite sport

*I love basketball because it makes me happy. It's a fast and exciting game. Every Saturday, I play with friends at the park. Last month, I scored my first point .I felt so proud! Next year, I'll try out for the school team.*

### 4. Inference & Justification (5 marks total)

#### **The Big Soccer Game**

*It was the final match of the school soccer tournament. The Tigers and Bears were tied 2-2 with just five minutes left to play. All the parents were cheering loudly from the sidelines.*

*Max from the Tigers had the ball near the Bears' goal. He was about to shoot when he saw Sam, the Bears' best player, fall down and grab his ankle. Sam was in pain, but the referee hadn't noticed yet.*

*Max remembered what his coach always said: "Good sportsmanship is more important than winning." Even though he could have scored an easy goal, Max kicked the ball out of bounds so the referee would stop the game.*

*Some parents groaned, but Max's coach gave him a thumbs up. The referee helped Sam off the field and checked his injury. When play started again, Sam's teammates passed the ball to Max as a thank you.*

*After the game, both teams received a special "Fair Play Award." Sam limped over to Max and said, "Thanks for helping me." Max smiled and replied, "That's what teammates do - even when we're on different teams!"*

*All the parents clapped, and both teams went for pizza together. Max knew he had made the right choice, even if it meant not winning the game.*

---

**1- Inference Question (2 marks):**

***Why did Max kick the ball out of bounds instead of scoring?***

*Example answer: Max kicked the ball out because he saw Sam was hurt and wanted to help him instead of scoring an unfair goal.*

**2- Justification(3 marks)**

***"Both teams care more about friendship than winning." Justify this from the story.***

*Example answer:*

*1- The Bears pass the ball to Max as a thank you instead of playing competitively after the injury.*

*2-Both teams happily go for pizza together after the game, showing they value friendship over the match result.*
