Ali: Hi, Saif. How are you?

Saif: I'm very well, Ali, thank you!

Ali: Why didn't you come to school yesterday?

Saif: I was really ill. But I'm fine now.

Ali: I'm really happy for you.

Saif: I heard you learnt some interesting things about the UAE yesterday.

Ali: Yes, we did. Did you know that about 9.5 million people live here?

Saif: Really? I thought it was only 2 million.

Ali: This is the local population. 7.5 million are the people who live and work here from other countries.

Saif: I see...that is interesting.

Ali: Also, you know our flag has four colours: red, green, white and black. Each colour has a meaning. Do you know what green is for?

Saif: Is it for the battles or does it represent bravery?

Ali: Well, it is for the trees and plants.

Saif: I didn't know that. What did you learn about animals?

Ali: Well, the national bird of the UAE is the falcon. I thought it was the eagle.

Saif: I knew that...What about the emirates? Which is the smallest one?

Ali: Not Abu Dhabi. Ajman is the smallest. Abu Dhabi is the largest.

Saif: What about the weather?

Ali: Well, June, July and August are very hot. September can be very hot, too. But the hottest months are July and August.

Saif: Thank you for all the information Ali. Now I know more things about our country.

## Part 3

Narrator: Grade 5. Listening: Part 3. Listen to a girl talking about a famous person named Elon Musk. Listen and write one word or number in each space. There is one example.

	Gender	Age (approx.)
[Character 1]	F	CHILD 10

I'm going to tell you about someone that I admire a lot. His name is Elon Musk. Elon Musk was born in 1971. He is very young. He is as young as my father. My father was born in 1972. Elon Musk lives in Canada, but he was born in South Africa. He is a businessman, and also an engineer and inventor at the same time. He is very rich because everything he does is very good and people buy what he makes.

He wants to change the world. He wants to make it better. The Tesla cars that he makes work with electricity, not petrol, so cars do not make the air dirty. SolarCity is the name of another business he has which makes batteries that can give electricity to houses with the help of the sun. He also wants to help people to visit Mars as tourists. For this to happen he has SpaceX.

My favourite project of Elon Musk's is one which will happen in the UAE. The name of this project is Hyperloop. Hyperloop is like a train that will move people from place to place very fast. It is so fast that it will take only 10 to 15 minutes to travel from Abu Dhabi to Dubai. That's the same time it will take someone to travel from Dubai to Fujairah, too! Isn't this great?

Narrator: Now, listen again.

[The recording is repeated.]

Narrator: This is the end of Part 3.
