STEREOTYPES! ARE THEY?

1 EMAN

My dad often says this about me. It's true that I hardly ever read newspapers. But I read the news online every day. And it isn't all stuff about my favourite actors! At school, we also talk about important events or problems. And we often look up more information about them online.

2 OSAMA

Do people really think this is true? It's a really old and boring stereotype. I love doing all kinds of things: from playing football to reading books about history. My brother is only 13 and he's the same. When my parents put on the TV we usually want to watch the same things.

3 HAMED

The problem is, they think I am not serious enough about my future job. I think I have lots of interesting ideas about my future, but my friends and hobbies are more important right now. When I get back from school, I don't always want to be serious. We all need to relax sometimes!

4 MARIAM

This isn't true! I play sports at school twice a week. I get up at eight on Saturdays and I play volleyball in a team. I usually cycle to school and when I go out, I hardly ever eat fast food. Of course, some teenagers stay in all the time and their only hobby is TV or computer games.
