آسيه القطاونة

مالذي يجعل منزلك بيتاً؟

What makes your HOUSE A HOME?

ليست منزل بيت كلمتا

The words 'home' and 'house' don't mean the same in English. A home is a place where someone lives and feels comfortable, which could be a house, a flat or even a boat! But a house is always a building. A modern house in towns and cities is a building with four walls and a roof above it, usually in a street with lots of other houses around it. In most houses

there are rooms for different activities. So people can eat in the kitchen, sleep in the bedrooms, wash in the bathroom and relax in the living room.

My favourite room is my bedroom. It has all my stuff in it and I love it. My dad loves reading in the comfortable armchair in the living room. My younger brother spends a lot of time in the big garden - he loves playing there with his friends! My older sister is away at university, so her bedroom

is the room for ironing. And my mum can

جيداً طبخ

2.3 عادة

cook really well, so she's usually in the kitchen.

When I'm away from home, I sometimes feel homesick. Of course, I miss all my

games, my books and my photographs, but I also miss family routines. Our house is noisy in the morning before work and school, when it is full of people. Then,

when I get back in the evening, there is the fantastic smell of my mum's cooking.

So my house is also my home. It is a special place for me to live. Every

summer, when it's not dark in the evenings, all the neighbours talk together

in the street. I have good neighbours.

They are always friendly but respect other people's privacy. They offer help when it is needed and always participate in neighbourhood events. That all helps to

make it the perfect home for me.
