أولياء الأمور الكرام،

السلام عليكم ورحمة الله وبركاته،

انطلاقاً من حرصي على دعم أبنائنا بكل ما يعزز تعلمهم ويقوّي مهاراتهم، يسعدني أن أقدم لكم مذكرة الفصل الدراسي الثاني، والتي أعددتها بعناية لتكون مرجعاً متكاملًا لأبنائنا الطلبة.

وتتضمن المذكرة هذا الفصل قصة تعليمية ممتعة يقرأها الطالب أسبوعيًا، ليقوم باكتشاف المفردات الجديدة وفهمها من خلال سياق القصة، مما يعزز مهارتي القراءة والاستيعاب بطريقة شيّقة.

كما تشمل المذكرة المفردات الأساسية، القواعد، والكلمات الأكثر شيوعًا (**High Frequency Words**)، وذلك بما يتوافق مع محتوى هذا الفصل ومتطلباته.

أسأل الله أن يجد أبنائنا في هذه المذكرة خير عون لهم في رحلتهم التعليمية، وأن تسهم في رفع مستواهم اللغوي وزيادة ثقتهم بأنفسهم.

شاكرة لكم ثقتكم وتعاونكم الدائم، ومتمنية لأبنائنا مزيدًا من التميز والنجاح في هذا الفصل.

مع خالص الاحترام والتقدير،

عيشة الأعضب

Dear Parents,

Peace be upon you,

As part of my ongoing commitment to providing meaningful and engaging learning tools, I am pleased to present the Term 2 booklet, which I have carefully prepared to support our students throughout the term.

This booklet now includes an educational story that students will read weekly. Through the story, students will discover new vocabulary in context, helping them improve their reading, comprehension, and language skills in an enjoyable way.

The booklet also contains essential vocabulary, grammar rules, and high-frequency words, all aligned with the content and requirements of this term.

I hope our students will find this booklet a helpful companion in their learning journey, enhancing their language development and boosting their confidence.

Thank you for your continued trust and cooperation. I wish all our children growth, excellence, and success throughout Term 2.

With my deepest respect and appreciation,

Aisha Aladab

Week 1: Our Beautiful Planet

T. Aisha Aladab

You will learn:

- Read new words using phonics skills.
- Understand the story and identify the main idea.
- Read with expression and follow punctuation.
- Use new vocabulary in speaking and writing.
- Write simple, correct sentences.
- Summarize the story in a few short sentences.
- Use a dictionary or digital tool to find word meanings.

When I was a child, I liked drawing our beautiful planet. One day, I looked at my picture and felt like I was going on a journey.

First, I saw a high mountain. It was the highest mountain in my picture. Next to it, there was a long river. The river was the longest river I had ever drawn.

I followed the river until I heard a loud waterfall. The waterfall fell into a deep lake. The lake was the deepest place in my picture.

Far away, I saw a big ocean. In the ocean, there was a small island. It was the smallest island, but it was very beautiful.

Near the island, I found a dark cave. The cave was inside a wide valley. The valley was the widest place on my planet.

I smiled and said, "I like my planet. It has the highest mountain, the longest river, and the deepest lake."

Then I closed my eyes. My journey ended, but my picture stayed by my bed.

Our Beautiful Planet

Rewrite the paragraph:

When I was a child, I liked drawing our beautiful planet. One day, I looked at my picture and felt like I was going on a journey.

First, I saw a high mountain. It was the highest mountain in my picture. Next to it, there was a long river. The river was the longest river I had ever drawn.

I followed the river until I heard a loud waterfall. The waterfall fell into a deep lake. The lake was the deepest place in my picture.

2

Our planet has many different landforms. A mountain is very tall, and a river is long and full of water. The Nile River is the longest river in the world. A lake can be deep, and an island is a small piece of land in the ocean. I like learning about our beautiful planet and all the amazing places on it.

3

Earth is full of amazing landforms that make our planet special. Mount Everest is the highest mountain in the world, and the Nile River is the longest river. It flows through many countries and brings water to millions of people. A valley lies between two mountains, while a waterfall is a place where water falls from a high spot and makes a loud sound. Some lakes are very deep. Lake Baikal is known as the deepest lake in the world. Each landform has its own beauty, and together they make Earth a wonderful place to explore.

Reading

Read the text. Complete the sentences by choosing the correct words from the text bank. There are two words you do not need. There is one example.

Reading

Our Beautiful Planet

Our class goes on a walk to explore nature. I look around and see many amazing landforms. On my left, there is a tall shape covered with rocks and snow. The guide tells us it is one of the oldest places in the area.

We keep walking until we reach a place where water moves quickly and falls from a high rock. The sound is loud, so I cover my ears. A little further, we stop near a still place with calm water. Some students sit and draw the view.

Later, we take a narrow path that leads us into a dark space underground. I walk slowly because it is cold inside. When we come out, we stand in a wide open area with green grass and trees everywhere.

At the end of the trip, we rest beside a huge body of blue water. I like this moment because it feels peaceful. My teacher says we might visit a small piece of land far away next time too.

mountain	valley	waterfall	cave
ocean	island	like	too

Example:	Our class goes on a <u>nature</u> walk.
1	The students hear a loud sound coming from the
2	The class enters a darkduring their walk.
3	They rest at the end of the trip beside the blue
4	The teacher says they might visit a smallnext time.
5	The student says, "Ithis moment."

Reading

Read the text and answer the questions. Choose the correct answer. Choose A, B or C.

Lina's Big Adventure

Lina lives near the ocean. Every morning, she hears the waves before she even opens her eyes. One weekend, her family decides to visit a place she has never seen before. They drive for a long time until the weather becomes cooler and the trees grow taller.

The first place Lina sees is a deep cave hidden between two giant rocks. It looks dark inside, so Lina stands outside and listens to the echo of her voice. Later, her dad shows her a tall mountain far away. "We might climb that one day," he says. Lina thinks it looks exciting but a little scary.

After lunch, Lina and her brother walk to a quiet lake. The water is very still, and they can see their reflections clearly. From where they stand, they can also see a small island sitting peacefully in the middle of the water.

Before going home, Lina's family walks through a wide valley filled with green grass. The wind blows gently, and Lina feels happy. She realises she likes exploring new places, but she also looks forward to sleeping by the ocean again.

1	Lina hears the sound of the ____ every morning. A. river B. ocean C. waterfall	4	Overall, this text is about Lina exploring ____ and ____. A. landforms and nature B. food and cooking C. cities and traffic
2	The first place Lina sees on the trip is a ____. A. cave B. lake C. mountain	5	The text shows that the ocean is ____ and the lake is ____. A. loud / still B. quiet / dangerous C. busy / windy
3	Lina sees her reflection in the ____. A. valley B. lake C. mountain	6	Why do you think Lina looks forward to going home? A. She wants to sleep near the ocean again. B. She didn't enjoy the trip. C. She is tired of walking

Week 2: Exploring Space

25

T. Aisha Aladab

You will learn:

- Read new words using phonics skills (air / ear / are).
- Recognize and read high-frequency words correctly.
- Learn and use space vocabulary in sentences.
- Understand a text about space and identify the main idea.
- Read aloud with expression and follow punctuation.
- Ask and answer questions using Do you know that...?
- Use present simple to talk about facts.
- Identify and use compound nouns (e.g. space station).
- Write simple and compound sentences correctly.
- Use new vocabulary in speaking and writing.
- Summarize information about space in short sentences.

Exploring Space

Do you know about space?

Space is very big and full of amazing things.

Earth is our home planet. It is a planet that goes around the sun. At night, we can see the moon and many bright stars in the sky.

An astronaut travels to space in a rocket ship. Astronauts wear a space suit to stay safe. They live and work in the space station.

Astronauts have special jobs. They study the Earth and look at the stars. They are very careful when they work in space.

Do you know that space has no air?

Do you know that astronauts are brave?

They listen carefully and help each other. This story is about space. Space is full of wonders, and learning about it is exciting!

Rewrite the paragraph:

Earth is a planet in space. The sun gives light and heat to the Earth. We can see the moon and many stars when the sky is dark. Astronauts have special jobs in space. This text is about learning very interesting facts about space.

3

Earth is our home planet, and it moves in space around the sun. The moon goes around the Earth, and many bright stars shine at night. An astronaut travels to space in a rocket. Astronauts have important jobs, and they work together when they are in space. This reading is about space and the very amazing things we can learn about it.

Reading

Read the text. Complete the sentences by choosing the correct words from the text bank. There are two words you do not need. There is one example.

Reading

Exploring Space

Our class learns about space in school. Our teacher tells us that Earth is our home planet. It moves around the sun, and it is very important for life.

We learn about a small planet that is close to the sun. It moves fast and has no air. It is the smallest planet, and it gets very hot during the day. The teacher tells us this planet is Mercury.

Later, we hear about a planet that is very big. It has many moons and strong winds. It is the biggest planet in space. The teacher tells us its name is Jupiter.

At night, we look up at the sky when it is dark. We see the moon and many bright stars. We enjoy learning about space and asking questions.

Astronauts have special jobs. An astronaut travels to space in a rocket to study planets and stars.

earth	space	moon	astronaut
planet	star	sun	rocket
very	have	when	about

Example:	Our class learns <u>about</u> space in school.
1	Earth is our home _____.
2	The smallest planet is _____.
3	The biggest planet is _____.
4	We see the moon and stars _____ it is dark.
5	Astronauts _____ special jobs.
6	An astronaut travels to space in a _____.

Reading

Read the text and answer the questions. Choose the correct answer. Choose A, B or C.

Mariam's Space Adventure

Reading

Mariam learns about space in her class. She listens carefully when her teacher talks about planets and stars. Mariam thinks space is very interesting.

One day, her teacher shows the class a picture of Earth. She explains that Earth is our home planet and that it moves around the sun. Mariam learns that we can see the moon and bright stars in the sky at night.

Later, the teacher talks about an astronaut named Hazza Al Mansoori. He is the first Emirati astronaut to travel to space. Hazza Al Mansoori flew in a rocket and worked on the space station. Mariam feels proud when she learns about him.

The class also learns about two special planets. Mercury is the smallest planet and is very close to the sun. Jupiter is the biggest planet and has many moons.

At the end of the lesson, Mariam smiles. Astronauts have special jobs, and space is full of amazing things. Mariam wants to learn more about space.

1	Mariam listens carefully when her teacher talks about _____. A. food B. space C. animals	4	Hazza Al Mansoori travelled to space in a _____. A. plane B. ship C. rocket
2	Earth is our home _____. A. moon B. planet C. star	5	The smallest planet mentioned in the text is _____. A. Earth B. Jupiter C. Mercury
3	Who is the Emirati astronaut mentioned in the text? A. Neil Armstrong B. Hazza Al Mansoori C. Yuri Gagarin	6	Why does Mariam feel proud and excited? A. She learns about an Emirati astronaut and space. B. She wants to go home early. C. She does not like the lesson.

Week 3: Incredible Inventions

48

T. Aisha Aladab

You will learn:

- Identify important inventions.
- Use new invention vocabulary correctly.
- Read and spell words with y, ph, wh, e.
- Recognise and use high-frequency words (way, say, may, away).
- Explain how inventions help people.
- Use present simple to describe purpose.
- Say and write sentences using:

_____ help us _____.

_____ help people _____.

- Participate in class discussions about inventions.
- Read short texts and identify main ideas.
- Write simple and compound sentences about inventions.

Do You Know About Inventions?

Do you know about inventions?

Inventions are things people make to help us in our daily life.

A computer is an important invention.

Computers help us learn, work, and play games.

We may use a computer at school or at home.

A phone is another useful invention.

Phones help people talk to each other and share messages.

People can say many things using a phone, even from far away.

Many inventions need electricity to work.

Electricity helps machines turn on and do their jobs.

A machine can help us clean, cook, or travel in a faster way.

A scientist is a person who studies and creates new ideas.

Scientists invent things to help people live better lives.

This reading is about inventions and how they help us.

Inventions make our life easier and smarter every day.

Do You Know About Inventions?

Rewrite the paragraph:

A machine can help us clean, cook, or travel in a faster way.
A scientist is a person who studies and creates new ideas.
Scientists invent things to help people live better lives.
This reading is about inventions and how they help us.
Inventions make our life easier and smarter every day.

away

Fix the Sentence (HFW Edition)

Students correct the sentences using the correct high-frequency words.

1. Computers help us learn in a better **wai**.

1. We **mai** use a computer at school.

1. People can **sae** messages on the phone.

1. We can talk to people who are far **awei**.

Present Simple

We use the present simple to talk about what things do and how they help people.

sentence Pattern

Pattern 1

_____ help us _____ and _____.

Use this to say TWO things.

Example: Computers help us play games and do homework.

Pattern 2

_____ help people _____.

Use this to say how something helps people.

Example: Phones help people call their friends.

Pattern 3

_____ help us _____.

Use this to say ONE thing.

Example: Cars help us travel from place to place.

Lights help people see at night.

HFW:

way

say

may

away

Important Rules

- ✓ Use help (not helped)
- ✓ Use present simple
- ✓ Use a verb after “help us / help people”

Remember

We use this grammar to explain how inventions help us in daily life.

HFW:

way

say

may

away

Complete the sentences:

help – help us – help people – play – call – travel – see – work

1. Computers _____ us learn and _____ games.
2. Phones _____ people _____ their friends.
3. Cars _____ us _____ from place to place.
4. Lights _____ people _____ at night.
5. Machines _____ us _____ more easily.
6. Electricity helps machines _____.

2

Inventions help us every day. A computer helps us learn. A phone helps people talk. Machines use electricity to work. This text is about inventions.

3

An invention is something people make to help us. A computer helps us learn and play in a fun way. A phone helps people talk to family who are far away. Many machines need electricity to work. This reading is about how inventions help people.

Reading

Read the text. Complete the sentences by choosing the correct words from the text bank. There are two words you do not need. There is one example.

Exploring Space

Our class learns about inventions in school. Inventions are things people make to help us in daily life.

We learn about a computer. A computer helps us learn and do homework in a better way. We may use a computer at school or at home.

We also learn about a phone. Phones help people talk and say important things, even when they are far away.

Many machines need electricity to work. Electricity helps machines do their jobs every day.

A scientist creates new inventions to help people live better lives.

invention	computer	phone	machine
electricity	scientist	way	say
may	away	about	help

Example:	Our class learns <u>about</u> inventions in school.
1	A _____ helps us learn and do homework.
2	We _____ use a computer at school.
3	Phones help people _____ important things.
4	Machines need _____ to work.
5	A _____ creates new inventions.
6	Phones help people talk when they are far _____.

Reading

Read the text and answer the questions. Choose the correct answer. Choose A, B or C.

Mariam and Amazing Inventions

Mariam learns about inventions in her class. She listens carefully when her teacher explains how inventions help people. Mariam thinks learning about inventions is very interesting.

One day, the teacher talks about an important invention called a computer. A computer helps us learn and do homework in a better way. Mariam may use a computer at school or at home.

Later, the class learns about a phone. Phones help people talk and say important things, even when they are far away. Mariam thinks phones are very useful.

The teacher also explains that many machines need electricity to work. Electricity helps machines do their jobs every day. Without electricity, machines cannot work.

At the end of the lesson, Mariam learns about a scientist. A scientist creates new inventions to help people live better lives. Mariam smiles because she wants to learn more about inventions.

1	Mariam learns about _____ in her class. A. animals B. inventions C. space	4	Phones help people _____ important things. A. say B. way C. help
2	What helps us learn and do homework? A. a phone B. a machine C. a computer	5	What do machines need to work? A. water B. electricity C. air
3	We _____ use a computer at school or at home. A. away B. say C. may	6	Who creates new inventions to help people? A. a teacher B. a scientist C. a student

Week 4: Amazing Structures

67

T. Aisha Aladab

You will learn:

- Learn about famous buildings and monuments around the world
- Explore where, when, and how structures were built
- Use past simple tense to talk about historical events and constructions
- Identify materials used in building structures (metal, glass, stone)
- Recognise and use compound words, numbers, and contractions
- Apply past simple verbs (regular and selected irregular forms) in speaking and writing
- Read informational texts and identify main ideas and supporting details
- Write short informative texts describing structures using facts

Amazing Structures

Amazing Structures Around the World

Last week, Saif and his class learned about amazing structures around the world. Their teacher showed them pictures of a tall tower, a modern skyscraper, and the old pyramids. Saif was excited because they're very famous buildings.

The teacher explained that people built the pyramids long ago. They used stone to make them strong. There were no machines like today, but the structures were still very strong. Saif learned that people made these buildings with hard work.

Next, the class learned about modern buildings. A skyscraper is a very tall building. People use metal and glass to build skyscrapers. There are many modern buildings in big cities, and they're very strong too. Saif also learned about a long bridge. People built the bridge to help cars travel safely. The bridge was made of metal, and there were lights on it at night.

At the end of the lesson, Saif shared their ideas with his classmates. He learned that old and modern structures are both important. Saif thinks structures are amazing, and he wants to learn more about how people build them.

Week 6: Amazing People

105

T. Aisha Aladab

You will learn:

- Recognise spelling patterns to decode and spell new vocabulary and apply high-frequency words with multiple meanings correctly in context.
- Participate actively in discussions by asking relevant follow-up questions and responding appropriately to others' ideas.
- Summarise the main ideas from a group discussion using clear and complete sentences.
- Demonstrate reading comprehension by answering literal, inferential, and evaluative questions using evidence from the text and determining the meaning of unfamiliar words through context clues.
- Plan and write an informative text, organising ideas clearly and using facts and explanations related to a familiar topic.

Amazing People

Do you know that great people can change the world? In our class, we learn about an inventor, a scientist, and an explorer. We ask Who questions to find information about their achievements. Sometimes, the answer is hidden behind a small idea that becomes something big. Who invented the lightbulb? The inventor invented it to help people see at night. Many inventors invent new things to make life easier. We learn that an inventor does not give up, even when it is hard.

Who studied science to help sick people? Marie Curie was a scientist. She studied science because she wanted to help others. She was kind and worked carefully. Her work helped doctors and helped people feel better.

Who explored the ocean to discover new places? Ahmed bin Majid was an explorer. He travelled across the ocean to discover new places and help sailors. He did not stay behind; he explored the world and learnt from his journeys.

At the end of the lesson, we talk together and share what we find. We learn that inventors, scientists, and explorers are great people, and their work helps everyone.

Wh-Questions in the Past Simple

Grammar & Functional Language

What are Wh-Questions?

We use Who / What / Where to ask about things that happened in the past.

Sentence Structure

Wh-word + did + subject + base verb ?

HFW:

great

find

kind

behind

Examples

1. Who did invent the light bulb?
2. What did the scientist discover?
3. Where did the explorer travel?

Remember:

After did, the verb stays in the base form.

Answering the Question

Use the past simple in the answer.

1. Thomas Edison invented the light bulb.
2. The scientist discovered new ideas.
3. The explorer travelled to new places.

★ Key Rules

- Use did in the question
- Use the base verb after did
- Use past simple in the answer

Wh-Questions in the Past Simple

Use Who / What / Where and the verb in brackets.

- _____ did the inventor _____ the machine? (invent)
- _____ did the scientist _____ in the lab? (discover)
- _____ did the explorer _____ to? (travel)
- _____ did the scientist _____ science? (study)
- _____ did the explorer _____ new places? (explore)

Match each question with the correct answer.

Questions	Answers
Who did invent the light bulb?	He discovered new ideas.
What did the scientist discover?	He travelled to new places.
Where did the explorer travel?	Thomas Edison invented it.

Read and answer using the past simple.

1. Who did invent the computer?

2. What did the scientist discover?

3. Where did the explorer travel?

2

Long ago, people learned from science. A scientist studies science to help others. One great scientist wanted to discover new ideas. He was kind and worked hard.

An inventor likes to invent new things. The inventor invented a machine to help people. We can find many inventions today.

An explorer likes to explore new places. The explorer travelled to new lands. He did not stay behind. He explored the world.

3

Many great people changed the world long ago. A scientist studies science to learn how things work. One scientist wanted to discover new ideas to help people. He was kind and shared his knowledge. An inventor likes to invent new machines. The inventor invented tools to make life easier. Today, we can find many inventions at school and at home. An explorer likes to explore new places. The explorer travelled far to discover new lands. He did not stay behind, and his journeys helped others learn about the world.

Reading

Read the text. Complete the sentences by choosing the correct words from the text bank. There are two words you do not need. There is one example.

Reading

Amazing People

Our class learns about amazing people in school. Our teacher tells us about an inventor, a scientist, and an explorer. They were great people who helped change the world.

We learn that an inventor likes to invent new things. One inventor invented machines to help people. Today, we can find many inventions around us.

We also learn about a scientist. A scientist studies science to learn how things work. One scientist wanted to discover new ideas to help others. He was very kind and shared his work.

Later, we learn about an explorer. An explorer likes to explore new places. The explorer travelled far and did not stay behind. His journeys helped people learn more about the world.

inventor	scientist	explorer	invent
science	discover	explore	great
find	kind	behind	machine

Example:	Our class learns about <u>amazing people</u> in school.
1	An _____ likes to invent new things
2	A _____ studies science to learn how things work.
3	An explorer likes to _____ new places.
4	Scientists want to _____ new ideas.
5	We can _____ many inventions around us.
6	The explorer did not stay _____ during his journey.

Reading

Read the text and answer the questions. Choose the correct answer. Choose A, B or C.

Reading

Ali's Amazing Discoveries

Ali learns about amazing people in his class. He listens carefully when his teacher talks about inventors, scientists, and explorers. Ali thinks the lesson is very interesting.

One day, the teacher shows the class pictures of inventions. She explains that an inventor likes to invent new things to help people. Ali learns that many inventions help us every day.

Later, the teacher talks about a scientist. A scientist studies science to understand the world. Scientists work hard to discover new ideas. Ali learns that scientists are often very kind and help others.

The class also learns about an explorer. An explorer likes to explore new places. The explorer travelled far and did not stay behind. His journeys helped people learn more about the world.

At the end of the lesson, Ali smiles. He is happy because he can find new information and learn about great people.

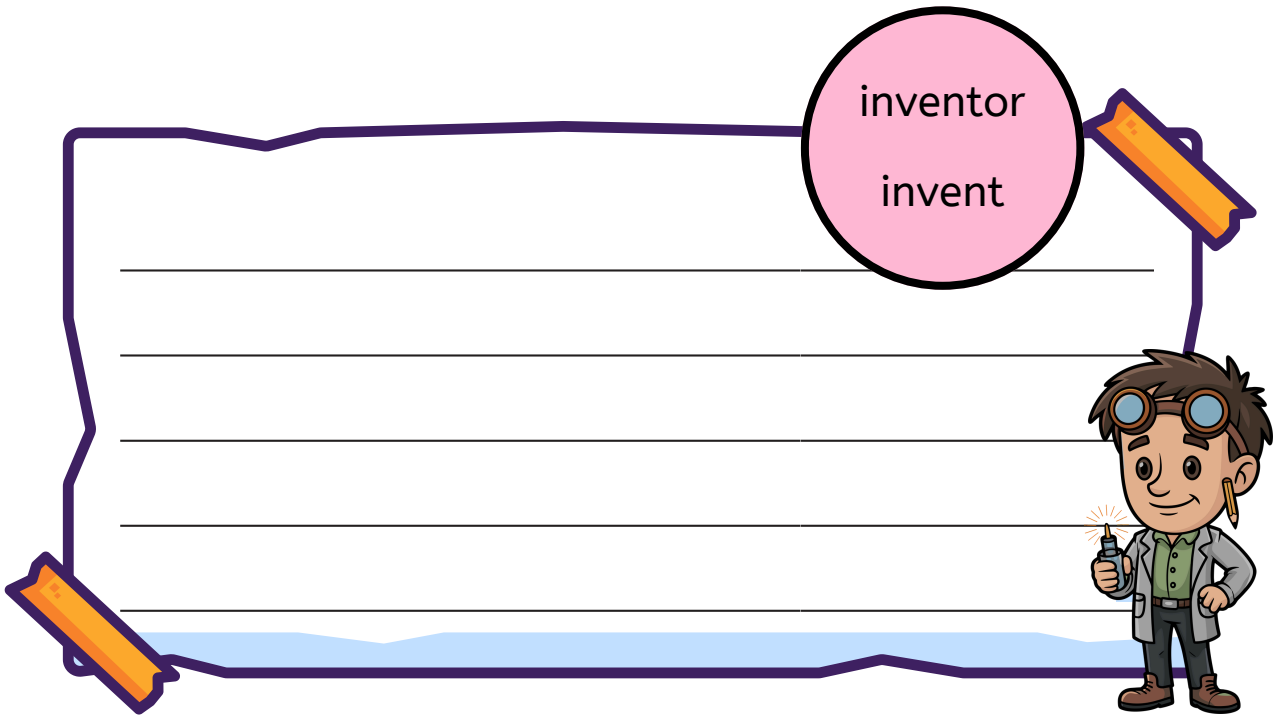

1	Ali listens carefully when his teacher talks about _____. A. animals B. inventors, scientists, and explorers C. food	4	What does an explorer like to do? A. explore new places B. invent machines C. study science
2	What does an inventor like to do? A. study science B. invent new things C. travel to new places	5	Which word best describes the scientist in the text? A. noisy B. kind C. lazy
3	What does a scientist study? A. history B. science C. art	6	Why does Ali smile at the end of the lesson? A. He wants to go home early. B. He does not like the lesson. C. He learns about great people and new ideas.

City Problems, Smart Solutions!

Many cities had problems in the past. Some cities had old pipes, so clean water did not reach all homes. There was a lot of pollution, and the air was dirty, so people got sick. Cars made loud noise, and the heat was very strong in summer.

Sometimes it rained a lot, so cities had a flood. Water stayed on the streets, so people could not walk or drive easily. The cities needed a solution, so workers built strong drains. They used bricks to fix the roads and stop the water.

People worked together to solve these problems. They fixed the pipes, so clean water came to homes again. They made better roads, so cars could move safely. Cities changed over time, so life became better for everyone.

Today, cities are smarter because people learn from the past. When there is a problem, people think, plan, and work together, so cities become safer and cleaner places to live.

6	The air will stay _____ and fresh.

Reading

Read the text and answer the questions. Choose the correct answer. Choose A, B or C.

Lina's Future City

Lina learns about future cities in her class. She listens carefully when her teacher talks about how cities will change. Lina thinks the lesson is very interesting.

One day, the teacher explains that cities will become smart, clean, and green. People will live in modern buildings that use clean energy. These buildings will help protect the planet.

Later, the teacher talks about transportation. In the future, people will use clean transportation, so the air will stay fresh. Cities will have a good plan to make life better for everyone.

At the end of the lesson, Lina feels happy. She believes people should care for their cities because they could make the future better. Lina wants to learn more about future cities.

1	<p>What does Lina learn about in her class?</p> <p>A. animals B. future cities C. space</p>	4	<p>What will people use to move around the city?</p> <p>A. clean transportation B. boats C. animals</p>
