

Unit 7 – In the Spotlight

Reading

Hamzah and his friends organised a science day for children in their town. They saw an advert asking for volunteers and decided to help. They created fun science activities and shared the event on social media. Almost two hundred children attended the event.

Questions

1. What did Hamzah and his friends organise?
2. Why did they decide to help?
3. How did they advertise the event?
4. How many children came?

Answers

1. A science day for children.

2. Because they wanted children to enjoy science.
 3. They posted about it on social media.
 4. About two hundred children.
