**Miss Jennings:** *Here, read it. It's very interesting.*

e) Listen again. Are these statements true (T) or false (F)? 

Miss Jennings says that:

## LESSON 3 *Spaceship Earth*

### 1 Read, say and write.

#### a) Read the text.

What should we think about before we drive?

### Spaceship Earth

On a spaceship the air is very important. The space travellers must keep it clean. Also, when they leave the Earth they have a limited amount of energy. They mustn't waste it. They can't get any more.

The Earth is like a spaceship. Our air is very important to us and to all plants and animals. We should keep it clean – but we don't. And we only have a certain amount of energy – oil and coal. We can't get any more. We shouldn't waste it – but we do.

We should think before we drive our car:

- is the journey really necessary?
- can we walk or cycle, not drive?

Because when we drive, we use valuable petrol. When we drive, we produce CO<sub>2</sub>, and this is bad for the climate.

#### b) Complete the summary. Use these words.

air    clean    energy    spaceship    waste

The Earth is like a <sup>1</sup> \_\_\_\_\_ because:

- our <sup>2</sup> \_\_\_\_\_ is very important to us. We should keep it <sup>3</sup> \_\_\_\_\_.
- oil and coal produces <sup>4</sup> \_\_\_\_\_. We shouldn't <sup>5</sup> \_\_\_\_\_ it because one day there isn't going to be any more oil and coal.

### 2 Speak and write.

#### a) What things in your home use electricity? Make a list of them. Ask your teacher for words you don't know. 👤👤

#### b) Write your list.

Lights, the TV,

and \_\_\_\_\_ all use electricity.

#### c) Compare your list with another pair.

### 3 Listen, say and write. Track 30

a) Look at the photograph. In pairs, what can you see?

b) Listen to the interview.

What *shouldn't* you do with a plastic bag?

**Presenter:** *In the Young World studio today we have Dr. Linda Robson. Dr. Robson is an expert on climate change. What do you have to say to our young listeners, Dr. Robson?*

**Dr. Robson:** *Climate change is happening and it's happening quickly. The world is getting warmer. And everyone can do something to stop this, everyone can help.*

**Presenter:** *What can we do?*

**Dr. Robson:** *Think carefully about everything you do. Little things – don't waste paper. Write on both sides. Don't waste electricity – turn the lights off when you leave the room at home and at school. Don't waste water – turn the taps off. When you get a plastic bag from the shop, don't throw it away. Use it again. Don't think 'There's nothing I can do'. We can all do something.*

c) Listen again. Which of these does Dr. Robson *not* say. Choose two sentences.

- 1 We should write on both sides of paper.
- 2 We shouldn't waste electricity.
- 3 We shouldn't leave lights on.
- 4 We should walk from home to school.
- 5 We shouldn't use plastic bags again.

d) Listen again. Underline the correct words.

- 1 (*Everyone/No one*) can do (*something/everything*) to stop climate change.
- 2 Think carefully about (*something/everything*) you do.
- 3 Don't think 'There's (*nothing/something*) I can do.'

### 4 Read and write.

What have you learned about climate change? Tick (✓) the correct sentences. Correct the incorrect sentences.

- 1 We should use less petrol.  \_\_\_\_\_
- 2 We should use more energy.  We should use less energy.
- 3 We shouldn't drive so many cars.  \_\_\_\_\_
- 4 We shouldn't recycle our plastic.  \_\_\_\_\_
- 5 CO<sub>2</sub> causes climate change.  \_\_\_\_\_

### 1 Match and say.

a) Match the verbs and the nouns. Write the correct number.

- |              |           |
|--------------|-----------|
| 1 throw away | 2 cause   |

 B What can we do?  
 C ~~Can I ask you some questions?~~  
 D Why is that happening?  
 E Is our climate really changing?

Reema: Excuse me Dr. Muneera.

<sup>1</sup> Can I ask you some questions?

Dr. Muneera: Yes of course, Reema.

Reema: <sup>2</sup> \_\_\_\_\_

Dr. Muneera: Yes, it is. It's changing very quickly.

Reema: <sup>3</sup> \_\_\_\_\_

Dr. Muneera: It's because of carbon dioxide. We produce carbon dioxide when we produce and use energy, drive cars or fly planes.

Reema: <sup>4</sup> \_\_\_\_\_

Dr. Muneera: When there's too much carbon dioxide above the Earth, the climate gets hotter.

Reema: <sup>5</sup> \_\_\_\_\_

Dr. Muneera: Think carefully about everything we do. We shouldn't waste anything – petrol, water, electricity.

### 3 Underline the correct word in each sentence.

- The traffic light is red. You (must/should) stop.
- It's a nice day. We (must/should) walk to work.
- We (must/should) try to produce less carbon dioxide.
- We (must/should) be very careful when we cross a busy road.

READING: 10 MARKS

Read about the *Emma Jane*. Tick (✓) true (T) or false (F).

On 28th November 1892 a small ship called the *Emma Jane* left New York in America for Marseille in France. It was taking wood and coal from America to Europe. There were 16 people on the *Emma Jane*, the captain, David Edmunds, and 15 crewmen. At four o'clock in the afternoon of 4th December another ship, *Morning Sun*, saw the *Emma Jane*. It was sailing towards Gibraltar and *Morning Sun* was on its way to Italy. The crew of *Morning Sun* watched the *Emma Jane* for an hour. When the ships were close, the crew of *Morning Sun* called to the *Emma Jane* and her crew answered them. Everything was fine.

Suddenly, the captain of the *Morning Sun*, James Benton, saw a fire on the *Emma Jane*. Immediately he sent two crewmen in a small boat to help. On the *Emma Jane* itself, Captain Edmunds and the crew tried to stop the fire but they couldn't put it out. They had water but the weather was windy. Soon, all the *Emma Jane* was burning. Captain Edmunds shouted to his crew to get into the lifeboat and leave. The two crewmen from *Morning Sun* helped them to get to *Morning Sun*. The fire destroyed the *Emma Jane*. It was amazing that no one died.

## LESSON 1 *Old places*

### 1 Look, read and say.

a) Who can you see in the picture?  
What do you think they are talking about? 🧑🧑

**Julian:** *Hi, Fahad, here's your activities programme for this month. Which trip would you like to go on?*

**Fahad:** *I'm not sure, Julian. I may go to London, but I might go to ...*

BOURNEMOUTH ENGLISH SCHOOL		
OCTOBER	SOCIAL ACTIVITIES	
Saturday 9th	<b>Visit Stonehenge</b> 10:00 – 16:00	
	<i>Come and see the 4,000-year-old stone circle.</i>	
Sunday 17th	<b>The Hawk Conservancy</b> 11:00 – 16:00	
	<i>See a selection of birds of prey. Some of them are endangered.</i>	
Saturday 23rd	<b>London</b> 08:00 – 19:30	
	<i>Visit the capital city. Lots of time for sightseeing and shopping.</i>	
Saturday 30th	<b>Oxford</b> 08:00 – 19:00	
	<i>Enjoy a day in this historic university city.</i>	

b) Read and check.

c) Read about Fahad and the school trips and answer the questions. 🧑🧑

Fahad is very interested in hunting. Sometimes he goes out hunting with birds in Saudi Arabia with his father. He's also very interested in prehistoric places. His friends Jim and Fred live in Oxford so he can go to Oxford any time. He really wants to buy presents for his family. He's visiting them in December – but he could buy presents in Bournemouth. He'd also like to go to London zoo.

- Which is the longest trip? 🧑🧑
- What is Stonehenge?
- What can Fahad do on Saturday 30th?
- Which two trips would you choose? Why?

d) Ask and answer. 

Which three trips do you think Fahad chooses? Give reason.

Fahad *might* choose the trip to ... because ...

Fahad *may* choose the trip to ... because ...

## 2 Read, listen and say.

## a) Read the magazine article.

Do we know why prehistoric people built Al-Rajajil?

## b) Read the article again.

Which of these sentences is *not* a possible or probable explanation for Al-Rajajil?

- 1 They were a trade centre.
- 2 They were a religious centre.
- 3 They were an old castle.
- 4 They were a meeting place.

## c) Listen and repeat.

They were possibly a trade centre.

They were probably a meeting place.

In Al-Jowf, in the Northern Desert of Saudi Arabia, you can find the standing stones of Al-Rajajil

(‘The Men’). They are probably over 5,000 years old. There are 54 groups of stones and some of them are three metres high. They go in parallel lines from east to west.

Why did those early people put these stones in the middle of a desert? Was it a prehistoric religious centre? Possibly.

Archaeologists do not agree about this. Some believe that the stones were probably a meeting place for people in the area.

Possibly they were also a trade centre. Many important trade roads crossed the Al-Jowf area.

The Al-Rajajil stones are a fascinating mystery.

d) Why do *you* think they built Al-Rajajil? Use *probably* and *possibly* when you talk about it. 

## LESSON 2 *I'm turning off the lights*

### 1 Say, listen and read. Track 35

**Penny:** *Why?*

**Nina:** *Because I want to help save energy.*

**Penny:** *But I can't read my newspaper. Why do you want to save energy?*

**Nina:** *So I can stop climate change. Miss Jennings says we shouldn't waste electricity. We can save money, too.*

**Penny:** *Mmm ... I agree. We should turn off the lights when no one's in the room, but don't turn them off when I'm reading!*

**Nina:** *OK, Mum. Do we need the lights on in the hall?*

**Penny:** *No. No, we don't.*

**Nina:** *Anyway, I'm going upstairs to do my homework.*

## LESSON 3 *Favourite places*

### 1 Read and say.

Match two photographs to each description of a place. 👤👤

Reema 3 \_\_\_\_

I have been to Taif lots of times. It is in the west of Saudi Arabia and is 1,700 metres above sea level so it's beautifully cool. People call it the 'Garden of the Hejaz' because of all the fruit and flowers. The bees love the flowers and make wonderful local honey. There are more than 400 parks in and around the city. There are beautiful, old traditional houses among the modern buildings. There are also traditional souks so it's a great place for shopping! It's my favourite place in Saudi Arabia.

Barbara \_\_\_\_ \_\_\_\_

My favourite place is Zakopane, a small town in the south of Poland. I've been there once. It's very near the Tatra mountains so it's great to go walking in the summer, and you can ski in the winters – but it's very cold! People from the Tatra mountains still wear traditional clothes, not like clothes that other Europeans wear. And the local food is delicious. There are a lot of tourists, particularly in the school holidays but it doesn't matter! There's so much to do and see.

Elena \_\_\_\_ \_\_\_\_

Florence is a city in Italy. I've been there three times. The Italians call it Firenze. It's very old and full of museums, art galleries, palaces and markets. I like the Central Market – they sell wonderful food there. My favourite palace is Palazzo Vecchio (Old Palace). It's more than 700 years old. Florence is one of the busiest cities in Italy, very crowded, very noisy, but really exciting! It's definitely my favourite place.

## LESSON 1 *The three banks*

### 1 Read, ask and answer.

- 1 What do we all have to do?
- 2 What is Saudi Arabia going to do to our beaches and islands?
- 3 What do we have to do with glass, paper and plastic?

### Vision 2030: Social responsibility

We all have to take care of our planet. The Kingdom of Saudi Arabia will do that with *Vision 2030*. As part of that plan, they are going to protect and clean our beautiful beaches and islands. They are also going to help us recycle more of the glass, paper and plastic that we all use every day. That way, we can use the same materials again to make new things!

### 2 Say, listen and write. Track 37

#### a) Look at the picture.

What is behind Dave?

What are they for?

#### b) Listen.

Which bank does the school *not* have?

**Yasser:** *What are those new bins in the playground, sir?*

**Dave:** *They're for recycling, Yasser.*

**Yasser:** *Recycling what, sir?*

**Dave:** *Well, there are three of them. One's a bottle bank, one's a plastic bank and one's a paper bank. You must be careful to put the correct things into the correct bin.*

**Yasser:** *So anything made of plastic goes into the plastic bank ...*

**Dave:** *And anything made of glass goes into the bottle bank ...*

**Rakan:** *And anything made of paper goes in the paper bank.*

**Dave:** *Quite right, Rakan. It's part of Vision 2030. We all have to recycle our glass, paper and plastic.*

**Yasser:** *What about things made of wood, sir?*

**Dave:** *We don't need a wood bank, Yasser. Wood rots naturally. In a few years wood disappears back into the earth.*

c) In which bank must you put:  
 glass bottles    plastic bottles    newspapers  
 Why?

d) Ask and answer. 

Because a glass bottle is made of glass.

What's a newspaper made of?

A newspaper's made of paper.

3 Match the sentences and the pictures. 

What happens to our old bottles?

- 1 When the bottle bank is full ...
- 2 ... they take the bottles to a recycling centre.
- 3 They break the bottles into small pieces ...

## LESSON 3 *Mount Pinatubo*

### 1 Read and say.

#### a) Read the article. What is it about?

On Saturday 15th June 1991 a volcano called Mount Pinatubo erupted. Mount Pinatubo is in The Philippine Islands in the Pacific Ocean.

The eruption lasted for nine hours and by Sunday 16th 800 people were dead, but this was not the end of the problem.

First, gas and ashes came out of Pinatubo and rose 34 km into the sky. The gas was sulphur dioxide (SO<sub>2</sub>). Between 15 and 30 million tonnes of SO<sub>2</sub> went up into the air. It formed an enormous cloud. This cloud travelled slowly round the world and produced serious climate change. The heat from the sun could not get through the cloud and the world's climate got cooler. In 1992 North America had the coldest, wettest winter for 77 years, and in March 1993 there were serious floods near the River Mississippi. In September 1993 in Africa the change was different. The Sahel Desert in North Africa had even less rain than usual. There was a very serious drought.

Most climate change is man-made but natural events can also cause large and more sudden changes.

**Fahad:** *That was a very interesting trip, Claudio. I really enjoyed it.*

**Claudio:** *So did I. Why do you think they built Stonehenge, Fahad?*

**Claudio:** *No, neither do I.*

**Fahad:** *We have standing stones in Saudi Arabia, too, Claudio. They're called Al-Rajajil. Here, let me show you some photos.*

Stonehenge is a famous circle of stones in southern England near the city of Salisbury.

Archaeologists believe that early Britons built Stonehenge about 4,000 years ago.

These builders didn't have modern tools, but they built this huge monument of stones.

The largest stones weigh about 50 tonnes. Some stones are more than 7 metres high.

People from all over the world visit this monument and ask the same questions.

*How did they build Stonehenge and why?*

We may never know the answer.

#### Facts about Stonehenge

- The sun rises above one of the stones at Stonehenge on midsummer's day, the longest day of the year.
- The smaller stones (up to 5 tonnes) came from mountains in Wales, more than 400 km to the west.
- The larger stones probably came from an area 30 km to the north.

### Ibn al-Haytham (965 – 1039): the inventor of photography

A Nine hundred years later, photographic plates were first used to record the image captured by the camera obscura. So we can also call Ibn al-Haytham 'the father of photography'.

B Abu Ali Muhammad Ibn al-Hasan Ibn al-Haytham was born in Basra in today's Iraq. He established the science of optics. People call him 'the father of optics'. He was an extremely clever scientist.

C Ibn al-Haytham wrote many really important books about optics. His major work was *Kitab al-Manazir (Book of Optics)*. It was very famous in Europe and for more than 500 years it was the most important book about the subject.

D Ibn al-Haytham invented the camera obscura or 'dark room'. This was a room with a white wall opposite a very small hole. Rays of light from a bright object outside the room pass through the hole. They make an upside-down image of the object on the white wall.

**It's rhyming that keeps us together**

It seems a long time  
 Since we last said a rhyme.

 And that is all wrong!  
 'Cos it's rhyming that keeps us together.

Don't say that you are much  
 Too busy to rhyme.  
 Too busy to learn something new.  
 So join in the verse and  
 Don't make matters worse –  
 I wrote this one specially for you.

It's the end of the book.  
 It's the end of the term.  
 Let's all say this short rhyme together.  
 Remember this rhyme  
 And have a good time,  
 'Cos holidays are not forever!

It seems a long time  
 Since we last said a rhyme.

Read about two volcanoes. Tick (✓) true (T) or false (F).

In the late 20th century and early in the 21st century there were two big eruptions of volcanoes. The first was in June 1991. A volcano called Mount Pinatubo in the Philippine Islands in the Pacific Ocean erupted. The second eruption was the Eyjafjallajokull volcano on the island of Iceland in the Atlantic Ocean in 2010.

The eruption of Eyjafjallajokull volcano started on 20th March and finished after about 60 days on 21st May. No one died but about 1000 people left their homes because it was not safe to be near the volcano. The gas and ashes rose 9 km from the volcano into the sky and formed a large cloud. It travelled west to Europe. From the 15th to the 20th of April skies in Europe were dark, airports closed and planes could not fly. 10 million air travellers could not leave on their flights.

The eruption of Pinatubo on the Philippine Islands lasted for nine hours. By 16th June 1991, 800 people were dead. Gas and ashes rose 34 km into the sky and made an enormous cloud. This cloud travelled slowly round the world and produced climate change. The heat from the sun could not get through the cloud and the world's climate got cooler. In 1992 North America had the coldest, wettest winter for 77 years. In September 1993 in Africa the change was different. The Sahel Desert in North Africa had less rain than usual. There was a very serious drought.

Mount Pinatubo is a <sup>1</sup> volcano. In 1991 it <sup>2</sup> erupted. Between 15 and 30 million tonnes of a <sup>3</sup> gas called sulphur dioxide went up into the <sup>4</sup> air and formed an enormous <sup>5</sup> cloud. It travelled <sup>6</sup> around the world and caused <sup>7</sup> serious climate change. The sun's <sup>8</sup> heat couldn't get through the cloud and the climate got <sup>9</sup> cooler. In America, the rains caused <sup>10</sup> floods. In Africa, it was the opposite. There was a serious <sup>11</sup> drought.
