Do you think it's important to learn about a country's customs and traditions before travelling there? Why? / Why not?

CULTURE MATTERS

1 **Ian** Tokyo is **out of this world!** I'm so glad Mum and Dad brought us here on holiday.
Ryan So am I. Look, I'm starving. How about going to **grab a bite?**
Ian Sure! Why don't we go to that sushi restaurant we saw yesterday?
Ryan OK, why not?

2 **Ryan** Ian!
Ian What?
Ryan Your shoes! Take them off.
Ian I'm glad you reminded me. I certainly don't want to offend anyone.
Ryan I don't either. Now, put them on the shoe rack and choose a pair of slippers.

3 **Ryan** Mmm! Delicious! I love sushi.
Ian I do too! However, eating with chopsticks is **a bit tricky**. I'm not very good at it.
Ryan Neither am I, but we'll **get the hang of it**. We're going to be here for another week. Hey! Have you seen the time? We need to **get a move on!** We're meeting Mum and Dad in ten minutes.
Ian OK, let's ask for the bill. Hey, Ryan. Do we bow to the waiter on the way out?
Ryan I guess. Bowing is not just a way to greet someone. It's also a way to say 'thank you'. So, why not?

Here, take your shoes.

5

Ian Who's that? He's waving at us.
Ryan I think he's trying to get our attention. Now he's pointing at your feet.
Ian Oh no! I'm wearing the wrong shoes! I'm wearing his shoes!
Ryan What? You're kidding!
Ian I don't know what you're smiling about! It's your fault! You gave them to me and I made a fool of myself!
Ryan I'm sorry, but they're almost identical to yours.

Read

A  Discuss.

- Do you usually call someone or send him/her a message? Why?
- Which types of social media do you use?

B  Read the articles quickly (skim) and match the titles with the articles A-C.1  Hello from Earth2  Keep it short3  Internet firsts**Messages that made history**A  Now scan the articles. Then read carefully and choose a, b, c or d.

Before we had email and text messages, people used to communicate over long distances by sending telegrams. Every word of a telegram cost money, so people tried to keep their messages as short as possible. In fact, the shortest message was just one punctuation mark. The writer Victor Hugo sent a telegram to his publisher to ask how well his new book was selling. The telegram was just: '?'. In answer, his publisher sent back: '!'

- Why did Victor Hugo send such a short message?
 - He didn't like writing long messages.
 - He didn't want to spend a lot of money.
 - He wanted to ask his publisher about a new book he was writing.
 - He wanted to tell his publisher that his new book was selling well.
- Why did Australian scientists ask people to send them messages?
 - They wanted short messages.
 - They wanted messages from abroad.
 - They wanted to send them to another planet.
 - They wanted to see which messages travelled the furthest.
- The messages the Australian scientists chose
 - were about a 'super earth'.
 - had more than 160 letters.
 - were about the planet Gliese 581d.
 - described what it is like to live on Earth.
- The first email probably
 - said only 'hello'.
 - had no words.
 - said something in Estonian.
 - said something very important.
- The first Skype call was disappointing because
 - it was not interesting.
 - we couldn't understand it.
 - it was in a foreign language.
 - it was to somebody in Estonia.

Have you ever sent a text message abroad? What's the furthest your messages have travelled? In 2009, Australian scientists asked for short text messages of no more than 160 letters for an outer-space communication project. They chose messages which gave information about people and life on Earth and sent them out to a planet called Gliese 581d. The planet is a 'super earth' – it is similar to the Earth, but it's eight times larger. It's also 20.3 light years away, so the messages won't arrive there until 2029! Will these messages make history? We will have to wait and see if there is any reply.

Have you ever wondered what the first email said? Something really important, right? Wrong. In fact, we don't even know what that first email said. Ray Tomlinson, the computer programmer who wrote it (and sent it to himself), said it was a test message from one computer to another in the same room, and was probably just a collection of different letters.

People have used disappointing phrases in other achievements in technology as well. For example, an Estonian developer uttered the first sentence over Skype in his native language. What he said meant, 'Hello, can you hear me?' Well, not so surprising, right? The first tweet was not much better. One of Twitter's founders wrote, 'just setting up my twttr'.

D  Answer the questions.

- What do you believe Victor Hugo's publisher meant when he sent '!'
- Why do you believe the Australian scientists sent a message to planet Gliese 581d?

Over to you...

 Discuss.

- What message would you send if you were one of the Australian scientists? Why?

- a. because they are organising a day trip for some visitors from abroad.
- b. because they are planning a trip to England for their English class.
- c. because they are discussing where in Qatar they can go for a day trip.

Hi Omar,

Thanks for answering so quickly. The group of students from the UK will be here in five days, so we need to plan their trip ASAP!

You've got some great ideas. I really liked the kitesurfing plan, but I think some people might not want to do that. It could be dangerous, too. We need something that everybody can participate in. The dhow tour is also a good idea, and it's actually quite cheap. What else? Oh, you mentioned something about flying over Purple Island and the mangrove forests in helicopters. That would be amazing, but the only problem is that I think it's going to be too expensive.

I like the idea of visiting Purple Island, though. What about just driving there? Or why don't we organise a night camping in the desert? They might like that. You could lend them your big tent!

Anyway, tell me what you think of my suggestions. Also, do you think we should arrange to do anything else with them on one of the other days? What do you suggest?

Keep in touch,
Nusrat

B  Read the email again. In which paragraph (1-4) does the writer:

- 1. ask for suggestions?
- 2. make suggestions?

D Swap emails with your partner. Read your partner's email, make some additional suggestions he/she could include in the email, and respond to your partner's suggestions.

- What does the phrase 'pay someone/something back' mean?
- What do you think 'pay something forward' could mean?

B  Below is a leaflet and a post. Read them quickly (skim) and check your answers in activity A.

Green Hill School's Pay it Forward Day

This Friday will be Pay it Forward Day! Each student is asked to do three kind things for other people. With 800 students at the school, if this goal is met, that's 2,400 acts of kindness in one day!

How does it work?

Just do something nice for another person without expecting anything in return. Then give them a Pay it Forward card, which asks them to do something nice for somebody else. These cards are designed by our Year 10 art students every year. You can print them from the school website.

What can you do?

- Write cards to cheer people up (other students, patients in hospitals, neighbours, etc.).
- Buy someone a snack.
- Join the Homework Help Club and help weaker students with their homework (in the school hall after school).
- Be friendly to someone you aren't good friends with.
- Help out with chores at home.
- Make time to visit your grandparents.

*... and so much more!**Waste no time!*

Start planning your acts of kindness! All together, we can create a wave of kindness throughout the school.

**Over to you...** Discuss.

Imagine you took part in Pay it Forward Day. What three acts of kindness would you perform? Why?

B

I first discovered Pay it Forward Day when I was caught in some heavy rain a few years ago - without a raincoat or anything - and was given an umbrella by a complete stranger.

I was also given a card that explained all about Pay it Forward. I was so touched by this act that, ever since then, I carry an extra umbrella with me at all times. You just never know when someone is going to need it.

I'm really glad Green Hill has organised a Pay it Forward Day! Everybody should become familiar with this idea and start performing acts of kindness. It's a very simple idea that can benefit the community and the world! I'm very good at history, so you'll find me in the school hall on Friday when classes finish. I've printed lots of Pay it Forward cards and I want to give away as many as possible!

SEAHHELP ON SOCIAL MEDIA

How it all began

SeaHelp was started by a group of friends. We were training to become divers at our local scuba diving centre and were shocked by the amount of rubbish we saw on our dives. So, we agreed that we had to do something to reduce water pollution, which harms wildlife as well as humans. We realised that, as divers, we had a chance to help, so we each made a promise to bring back at least one piece of rubbish from every dive.

What we do

Our team travels all around the country, cleaning up beaches and organising dives to remove rubbish from the sea. We are always looking for experienced divers for our scuba diving team ([apply here](#)), or you can just turn up to help at one of our various beach clean-ups.

Enter your location below to see where we are going to hold our next clean-up.

What happens to rubbish that we collect?

Everything our team collects is put into two groups: recyclable and non-recyclable rubbish. We obviously understand how important it is to recycle. If we recycle, we reduce the natural resources we use. Most of the recyclable rubbish is taken to local recycling centres, but some of it is used to make our special recycled jewellery.

[visit our shop](#)

What about the future?

At the moment, we are raising money for our first clean-up boat. With your help ([donate here](#)), we hope to raise enough to buy the boat in time for the summer season. When rubbish is thrown on beaches, it ends up in the water. Our scuba diving teams will be able to go into deeper waters with the help of the *SeaHelp* boat. As a result, we will organise many more clean-ups. We hope that our work will encourage people and the government to support us.

RED NOSE DAY IN THE UK

The first Red Nose Day was in 1988. It was organised by a charity to raise money for healthcare and education in the UK and abroad. Now, this fundraiser is held every two years in the spring.

On Red Nose Day, people go to school or work wearing a red plastic nose. During the day, you can ask people to donate money if you tell jokes or do funny things. There are also lots of different activities on every Red Nose Day – one year, people took part in a ‘fun run’ in London, where they raced in supermarket trolleys – so you should look out for events near you!

In the evening, there is a special programme on TV, comedians do shows to raise money for charity, and famous people agree to do silly things to make everyone laugh.

Red Nose Day is great fun for people of all ages, but the best thing about it is that it is for a good cause. Everyone has a good time, and the money raised goes to a variety of organisations that help people.

Qatar Foundation

A What do you know about Qatar Foundation? What do you think it does to make a difference? Read the text quickly (skim) and check your answers.

B Now scan the text. Then read it carefully and choose a, b, c or d.

Since its creation in 1995, Qatar Foundation (QF) has worked to give young people the education and knowledge they need to succeed. The former Emir, His Highness Sheikh Hamad bin Khalifa Al Thani, and his wife, Her Highness Sheikha Moza bint Nasser, started QF because they believe that a country's success is built on the minds of its people, and that if these are developed the country will grow. Later, when the Qatar National Vision 2030 was introduced, it also included an important role for QF: to unlock the talents and skills of the country's young people through education.

QF focuses on three main areas: education, science and research, and community development. Each of these is important to the foundation's goal of creating a country built on knowledge. QF runs many centres of education, but perhaps its greatest achievement is Education City, a large area in Doha that contains international schools and universities, as well as cultural centres. Interestingly, students can actually study at more than one university; they can pick and choose subjects and lessons from all those available and build a

final course of education that includes exactly what they need. There is also a science and technology park, which helps young businesses take their first steps.

Many of Education City's centres run research programmes, and QF works with organisations around the world, supporting many projects that try to improve lives. Around 70% of Education City's students are Qatari, but the goals of the foundation are not only for Qatar; as part of its third focus, QF works to improve the lives of people everywhere by bringing education, training and culture to countries across the continent.

Qatar Foundation is like the sidra tree that it uses as its symbol. This tree is found across the Arab world and is known for its strength; it grows in a difficult environment but reaches up towards the sky. In ancient times, men used to meet and sit under these trees to discuss important subjects. In a similar way, QF stands strong, with its roots in the country's Islamic culture and history, and the different branches of its organisation reach towards success.

- Qatar Foundation was created to
 - attract new minds to the country.
 - help the country move forward and develop.
 - encourage young people to get an education in science.
 - support the goals of the Qatar National Vision 2030.
- Students in Education City can
 - decide to change study courses whenever they want.
 - study courses from different universities at the same time.
 - choose to study at any international university in the world.
 - ask to study special subjects not offered at other universities.
- What can you understand from the third paragraph?
 - All QF research is carried out in Education City.
 - QF prefers to work with other Qatari organisations.
 - Students from abroad come to Education City to study.
 - After it succeeds in Qatar, QF will focus on other countries.
- The sidra tree was chosen as a symbol because
 - QF has got much in common with it.
 - it shows that QF is built on Islamic culture.
 - the idea for QF came to men sitting under this tree.
 - it is known and recognised everywhere in the world.

A Discuss.

The words below all have to do with *money*. What do they mean?

coin note cash
paper money currency

MONEY € MAKES \$ THE WORLD GO ROUND

1

In ancient times, money didn't exist, so people exchanged animals or things they had, such as cows, tea, spices and stones, for other things that they needed. In ancient Rome, salt was so important that it was used to pay soldiers for their work. The Aztecs and the Mayas used beans instead of money. In the 1600s, the Russians started to use fur, which was then called 'soft gold'.

2

During the 7th century CE, China created the first paper money in the world. Until then, the Chinese used copper coins. However, it was difficult for merchants to carry lots of coins with them when they travelled long distances. So, they started to use paper money, which was lighter. In fact, it was so **light** that it was soon nicknamed 'flying money'!

3

The answer is no. For example, US currency is not made of paper. Instead, it is printed on material that consists of 75% cotton and 25% linen. That makes it hard to tear. Actually, you would have to double fold a dollar about four thousand times (first forwards and then backwards) to tear it! New banknotes can also be made of polymer, which is a thin, flexible plastic. When the new five pound note came out in 2016, the UK government advertised it as 'strong' and 'long-lasting'. This made lots of people post online videos of themselves trying to **destroy** it!

B Look at the questions a-e. Do you know or can you guess the answers?

- Is paper actually used to make all paper money?
- Is money dirty?
- How long do coins last?
- Where was paper money first used?
- What did people use before money as we know it today?

C  Read the facts about money quickly (skim) and match each question a-e to the paragraph that provides the answer.

4

They usually last twenty-five to thirty years. Do you think that's not very long? Well, a note only lasts about 18 months. Do you wonder what happens to coins that are too worn out to use? They are recycled to **produce** new ones, of course.

5

Absolutely. Lots of germs live on money. According to a study, 94% of money carries bacteria and viruses - and some of them can **survive** for up to 17 days. Fortunately, not all of these germs can make you ill - but don't forget to wash your hands after you **handle** money.

NOTE

- **1600s** (sixteen hundreds) is the century that runs between 1600 and 1699.
- We write **75%**. We say seventy-five per cent.
- **CE** is an abbreviation for Common Era and **BCE** is an abbreviation for Before Common Era. The Common Era begins with year 1 in the Gregorian calendar (which is the most widely used calendar today).

Grammar

D   Look at the highlighted words in the text and try to guess what they mean. Match them with the meanings 1-5. Then check your answers in a dictionary.

1. to damage something so badly that it is useless:
2. to make:
3. to continue to exist:
4. not heavy:
5. to touch, feel or hold something:

E  Now scan the text. Then read carefully and find the numbers below. Match them with what they refer to.

- e. the century during which paper money was invented

The Minimalist Family

Stay-at-home mum and blogger of *The Minimalist Family*, Nina Wye, was shocked when she first realised how untidy her house was and how much junk she and her family had collected over the years. Without wasting any more time, she organised a decluttering weekend for the whole family. That was four years ago. Since then, her blog has helped other families find ways to reduce the amount of stuff they have, and find happiness in living more simply and with less. 'Getting started is the easy part,' Nina says. 'After that, you need to avoid buying things you want but don't need.'

During that weekend, Nina, her husband Marty and their three kids gathered two carloads of stuff they didn't use, want, or even know they had. They donated to charity what they could and recycled the rest. Marty says that he enjoyed getting rid of so many things with the help of the kids, but when they came home, the house didn't look much different. 'That's when I realised that we still had work to do. It would be tough, but it had to be done.'

Today each member of the Wye family owns about 100 items, including their clothes, books and toys. Pretty impressive, especially since recent studies have shown that 10-year-olds in England have around 238 toys and usually end up playing with only twelve of **them**. After the Wyes got rid of two-thirds of their things, the children seemed relaxed and enjoyed playing more. 'We were afraid they would miss their toys, but I think all the choices they had just made them fight more,' Nina says.

Instead of buying their children presents they'd soon get bored of, Marty and Nina now choose to spend their money on experiences. They take the kids horse riding, go to amusement parks, or even travel. In other words, they do things that they couldn't afford to do before. How are they able to do that now? Well, after years of minimalist living, the Wyes have managed to save more money. 'We hadn't realised how much money and, most importantly, how much time we used to spend on shopping for things we didn't even need,' says Nina.

'That has been the biggest gift for our family,' Nina adds. 'We spend a lot less time cleaning our home, deciding what to wear, or looking for things in piles of stuff, so we have a lot more time for doing the things we love and for each other. I'm so glad we changed our lifestyle!'

Anti-waste event ideas

22nd March, 2019 at 06.17 p.m. by Alice P.

I would like to express my opinion on the options that have been suggested for the school anti-waste event.

First, I feel that the poster activity is great. However, it will be more successful if students work in groups instead of alone. Some people are better at drawing, others at writing or thinking of interesting ideas. A group is more likely to have all the skills necessary for making a good poster.

Second, making paper sounds like fun, but this activity may not be so successful. On the one hand, it's something creative and a bit different. On the other hand, I'm worried there won't be enough equipment for everyone at the same time, and students could get bored. What's more, I think things could get really messy!

In conclusion, I definitely think that the poster activity option is more suitable. I hope you take my opinion on the event into consideration when making your final decision.

E You are involved in organising a kids' craft event at your local library. Two activities have been selected, but only one will be chosen. Post your opinion on the suitability of the activities on the library blog, providing reasons for your opinions.

Activity	Materials Needed	Advantage	Disadvantage	Time Needed	Cost

NEWS

The town of Norton will be **evacuated** as the fire that **broke out** in the surrounding area a few days ago continues to spread. Local authorities are doing what they can so that no roads are closed. They are also going to organise extra buses out of the town during the three-day evacuation period. They are confident that the danger will pass and **residents** will return to their homes within the week.

Firefighters don't yet know what **caused** the fire that broke out in the nearby forest area. 'Fires are common during the summer because of the high temperatures and little rain; however, in this case, unusually strong winds helped the **flames** spread with surprising speed,' said chief firefighter, Mark Smith.

According to Tony Blaze, Norton's mayor, lots of firefighters from across the country were called in to help. 'We didn't have enough men to control a fire this size,' he explained. 'However, even with so many men, and helicopters that are pouring water from above, putting out the fire is very difficult. The wind keeps changing direction and carrying the flames with it. We are all making a huge effort to put out the fire as soon as possible. We hope the weather will change and bring some rain,' he said.

Much of Norton has been without electricity since yesterday, but the decision to evacuate the town was made only after serious thought. 'We don't want people to panic,' said Blaze. 'However, the fire destroyed two buildings on the outskirts of the town yesterday, and smoke from the blaze has now travelled as far as the town centre. Breathing has become difficult, and our residents' health and safety is what matters most. The evacuation will begin within twenty-four hours,' said the mayor.

Tour guide Caves have been around for millions of years...

Olivia Look at all the rock formations. It takes a really long time for them to form...

Stacey **So what?**

Olivia It's impressive. Didn't you watch the documentary? I sent you a link to it last night.

Brenda **I couldn't be bothered.**

Stacey Neither could I.

Olivia You missed out!

2

Olivia Stacey, the tour guide told us that we had to stay with the group.

Stacey I'm just taking a photo. My dad asked me to take a photo of the stalagmites hanging from the ceiling.

Olivia Actually, it's the other way round.

Stacey Whatever. It's the same thing.

Olivia No, it's not. Stalagmites rise from the cave floor, while stalactites...

Stacey Urgh! **Cut it out,** Olivia.

3 *A few minutes later...*

Olivia Hey, where are the others?

Brenda I hope we don't lose our way.

Stacey Don't worry, I see light coming from somewhere. Let's go in that direction.

Stacey Look! Lights on the ceiling!

Brenda **Get out of here!**

Olivia They're *Arachnocampa luminosa*!

Brenda *Arachno...* what?

Olivia Glow worms! They attach to the ceiling and make special nets to catch insects.

Brenda Like spiders do?

Olivia Well, not exactly. If you look closely, you'll see something like a silk string hanging down. The string is sticky, so insects get stuck to it.

Stacey Ewww! **That's disgusting!**

Olivia No, it isn't.

Brenda And why do they light up?

Olivia To attract insects, of course.

5

A  Discuss.

- Have you ever travelled by plane?
- Have you ever had or heard of anyone else who had a particularly good or bad experience while travelling by plane? What happened?

B  Read the dialogues quickly (skim). Where are Olly, Tim and Alan? How do you know? JUST IN TIME!

In the morning...

Olly Hey, Tim! Give me a hand, will you?

Tim What's in that bag? You didn't go shopping at six in the morning, did you?

Olly Sort of. I just got this travel pillow. Maybe it will help me relax and sleep during the flight. Plane seats are so uncomfortable, aren't they?

Tim I don't really mind them. Now, where is Alan? He's late again, isn't he?

Olly I just got a text from him. He didn't hear the alarm clock, so he woke up late.

Tim That sounds like Alan.

Olly He isn't going to miss the flight, is he?

Tim Well, it's impossible for him to be here in time! Our gate closes in 40 minutes and his home's at least an hour away from here.

Olly Anyway, we have to check in now. Let's go, shall we?

C  Now scan the text. Then read carefully and answer the questions. Write T for Tim, O for Olly or A for Alan.

Which man...

1. has had a positive experience flying with Cloudline Airlines before?
2. isn't usually on time?

5. almost missed the flight?
6. explains that there might be a good reason behind the delay?

A few minutes later...

Olly Did you hear? Our flight is delayed because of a technical problem.

Tim Oh no, I hate delays! We should give Cloudline Airlines a negative review, shouldn't we?

Olly No, I disagree. The delay probably means that they're checking everything so that we can have a safe flight. These things happen. After all, it may not be a long delay.

Tim You have a point. The last time I travelled with Cloudline Airlines, everything was fine; the flight attendants were very polite and made sure that all passengers were happy during the flight.

Later...

Olly I asked a member of staff and they told me we're boarding soon.

Tim Good, we're only half an hour behind schedule.

Olly Is that...Alan?

Alan Hi, guys! Right on time as always!

Over to you...

WATER Awareness in Qatar

A Look at the title of the text about Kahramaa Awareness Park and the illustrations. What do you think this park tries to do? Read the text quickly (skim) and check your answers.

B Now scan the text. Then read it carefully and choose a, b or c.

Water is an important resource and is necessary for life. Few understand this better than the people of Qatar, who live in very dry, desert conditions. In this environment, finding water for drinking can be tricky, so Qataris take saving water very seriously. Qatar has some natural water resources under the ground, and these fill up when it rains. However, there is not enough water for the whole population. The largest part of the country's water comes from a factory which takes seawater, removes the salt, then sends it to people's houses.

This may be a perfect solution, but it doesn't mean that saving water is any less important. People in Qatar use a lot of water because it is very cheap, but preparing all that water in the factory still uses a lot of energy. Part of Qatar National Vision 2030 is to educate young people about the importance of natural resources – and how, even in a country with as many resources as Qatar, they should be careful about how they use them. Part of this is Kahramaa Awareness Park (KAP), a centre where serious ideas for protecting the environment are turned into a fun and exciting day out through the use of cartoons, videos, games, a ride and even a 3D experience.

When visitors first enter KAP, they find a 3D model of the park, which explains the different parts of the amazing building. The park is built from recyclable materials, which were chosen because they let very little heat pass through. This means it takes very little energy to keep the building cool.

Visitors have the chance to watch a video about the design of the park and learn how it uses three forms of green energy. The building is a successful example of green design, but it is also incredibly beautiful. It is designed in the shape of a pearl inside a shell, protected by the earth. The pearl is a sign of both Qatar's past and its energy today. Inside the pearl is a round room called the Dana Dome, where visitors enjoy a 3D adventure experience that teaches them about water.

One of the main attractions of the park is Qatara's journey, a mini adventure ride where visitors learn all about the water cycle. This is followed by various exhibitions about saving water, the ways water is prepared for drinking, and water 'footprints' (how much water we use every day). The park's many attractions fascinate visitors and raise their awareness of the importance of natural resources. The experience is sure to create a new generation of Qatari citizens who care about looking after their environment and protecting it for the future.

- Where does most of Qatar's drinking water come from?
 - the sea
 - rainwater
 - water underground
- Why should people in Qatar try to save water?
 - Making clean water needs energy.
 - Water is needed for other resources.
 - The country cannot make enough water.
- Why has KAP got low energy needs?
 - Because the materials are all recyclable.
 - Because it uses three forms of green energy.
 - Because the building doesn't let much heat through.
- The design of the Dana Dome aims to remind visitors of
 - the importance of using green energy.
 - a large shell with a pearl at the centre.
 - the country's history and modern energy use.

The **Passive Voice** is formed with the verb **be** in the appropriate form and the **past participle** of the main verb.

Grammar Reference

NOTE

The person who causes or carries out the action is called an **agent** and is preceded by the preposition **by**.

We usually omit the agent:

- when the action interests us more than the agent.
- when we don't know the agent.
- when it is easy to figure out who the agent is.

My files were deleted.

Zero Conditional

IF-CLAUSE	MAIN CLAUSE
If/When + Present Simple	Present Simple

The **Zero Conditional** is used to talk about general truths/facts.
If/When you press the button, the door opens.

Module 7

Order of Adjectives

Adjectives define nouns. They have no gender and are the same in the singular and plural. It is possible for several adjectives to define the same noun. In this case, adjectives come in the following order before the noun.

NUMBER	OPINION	COLOUR	DESIGN	MATERIAL	NOUN
Four	nice	black	striped	silk	skirts

NOTE

You do not have to use all the categories together.

Infinitive

We use the **full infinitive** (**to** + base form of the verb):

- to express purpose.
She went to the supermarket to buy some orange juice.
- after certain verbs: *want, would like, would love, decide, forget, learn, teach, need, plan, promise, try, hope, manage, arrange, choose, offer, refuse, expect, agree, tell, etc.*
I decided to buy a house near the sea.
- after **too** and **enough**.
This coffee is too hot to drink.
I'm strong enough to carry that box.
- After the structure **it + be + adjective**. (*It's nice, It's easy, etc.*)
It's difficult to understand this text.
- After certain adjectives: *afraid, surprised, free, happy, ready, sorry.*
Karmin was happy to see his best friend after all those years.

We use the **bare infinitive** (base form of verb **without to**):

- after modal verbs (can, could, will, would, should, may, might, must).
Will you stop talking?
You must visit the doctor today.
- after the verbs **let** and **make** (in the Active Voice).
She makes me study all the time.
Mum, let me go to the cinema, please.

NOTE

We can use the verb **help** with a bare or full infinitive.
*I always help my brother **do** his homework.*
*I always help my brother **to do** his homework.*

-ing form

We use the **-ing form** (base form of the verb + *-ing*) as a noun. We use *-ing* forms:

- as subjects.
Smoking is a bad habit.
- after certain verbs: *like, love, hate, enjoy, prefer, continue, stop, finish, start, keep, avoid, begin, imagine, practise, suggest, risk, spend (time), etc.*
Keep going and you'll find the post office.

- after certain expressions: *don't mind, can't stand, be interested in, it's worth, How/What about...?, I look forward to, be good at, can't help, feel like, etc.*
I can't stand being ill.
- after prepositions.
We use a toothbrush for brushing our teeth.
- after the verb **go** to indicate activities.
I go swimming every weekend.

NOTE

- The verbs **like, dislike, love, hate, start, begin** are followed by a **full infinitive** or an **-ing form** without any significant difference in meaning.
I like having/to have lunch in the garden.

Negative Questions

Negative questions are formed with:

Auxiliary Verb + n't (short form of not) + Subject + Main Verb.

We use negative questions:

- to express emotions (e.g. surprise, anger, annoyance).
Haven't you been to the city centre before?
Can't you do anything right?
- when we expect the listener to agree with us.
Don't you think this is a beautiful painting?

We reply to negative questions the same way we reply to regular questions.

Module 8

some / any / no

- **some + uncountable / plural countable nouns** in affirmative sentences and offers.
There is some orange juice in the fridge.
Would you like some chips?
- **any + uncountable / plural countable nouns** in questions and negative sentences.
Is there any orange juice in the fridge?
There aren't any chips on the table.
- **no (= not any) + uncountable / plural countable nouns** in affirmative sentences to give a negative meaning.
There is no cheese in the fridge. = There isn't any cheese in the fridge.

much / many / a lot of / lots of / a few / a little

- We use **much** with uncountable nouns, in questions and in negative sentences.
How much sugar do you need for the cake?
We haven't got much money.
- We use **many** with plural countable nouns, usually in questions and in negative sentences.
Are there many chairs in the room?
There aren't many books in the bookcase.
- We use **a lot of / lots of** with uncountable and plural countable nouns, usually in affirmative sentences.
There is a lot of coffee in my cup.
There are lots of apples in the fridge.
- We use **a few** with plural countable nouns, in affirmative sentences.
There are a few magazines on the table.
- We use **a little** with uncountable nouns, in affirmative sentences.
There is a little cheese on the table.

Reported Speech (Statements)

In **Direct Speech**, we repeat the exact words that someone said. We usually use the verb **say** and the words of the speaker are put in quotation marks.

Henry said, 'Alex wants to buy a new car.'

In **Reported Speech**, we report the meaning of what someone said, without using their exact words. We use a reporting verb, usually **say** or **tell**, followed by **that** (which can be omitted) and the reported statement.

Henry said that Alex wanted to buy a new car.

NOTE

- We use **say** when there is no indirect object.
'I'll be there,' he said.
He said that he would be there.
- We use **tell** when there is an indirect object.
'I'll call you, Omar,' he said.
He told Omar he would call him.

- When we change a sentence from Direct to Reported Speech, pronouns and possessive adjectives change according to the meaning of the sentence. Also the verb **come** changes to **go**.
'You look great in your new dress,' said Aisha.
Aisha said that I looked great in my new dress.
Kelly said, 'I'll come with you.'
Kelly said that she would go with me.
- When the reporting verb (say or tell) is in the Past Tense, we usually make the following changes:

Present Simple → Past Simple

Kevin said, 'I want to go bowling.'
Kevin said (that) he wanted to go bowling.

Present Progressive → Past Progressive

Andy said, 'I'm reading a novel.'
Andy said he was reading a novel.

will → would

Sean said, 'I'll be there soon.'
Sean said he would be there soon.

can → could

Jane said, 'I can help you later.'
Jane said she could help me later.

may → might

Frank said, 'I may buy a new pair of shoes.'
Frank said he might buy a new pair of shoes.

must → had to

Mum said, 'You must be home early.'
Mum said I had to be home early.

Question tags

Question tags are short questions at the end of statements. We use them:

- when we are not sure about something and we want confirmation.
- when we expect the other person to agree with us.

Question tags are formed with the **auxiliary verb** (be, do, have) or **modal verb** (can, must, etc.) of the main sentence + a **personal pronoun** (I, you, he, she, etc.) in the same person as the subject. If the sentence does not contain an auxiliary or modal verb, we use **do**, **does** or **did**, depending on the tense of the verb.

*Khaled is a doctor, isn't he?
You couldn't see her, could you?
Tom believed him, didn't he?
Peter works at a bank, doesn't he?*

- When the statement is affirmative, we use a negative question tag.
The boys are at school, aren't they?
- When the statement is negative, we use a positive question tag.
He hasn't seen the doctor yet, has he?

NOTE

- **Let's** is followed by the question tag **shall we?**
Let's go to the cinema, shall we?
- **Imperatives** are followed by the question tag **will/won't you?**
Open that door, will you?

Subject Questions - Object Questions

- **Subject Questions:** When we use the question words **who**, **which** and **what** to ask about the subject of the verb, we form the question without auxiliary verbs (**who/which/what + verb** in the **affirmative form**).

*Who saw the accident?
Tom (saw the accident).*

*What happened outside?
An accident (happened).*

*Which boy is your new neighbour?
The blond boy (is my new neighbour).*

- **Object Questions:** When we use the question words **who**, **which** and **what** to ask about the object of the verb, we form the question with auxiliary verbs (**who/which/what + verb** in the **question form**).

*Who did you see at the restaurant?
(I saw) Tom and June.*

*What are you eating?
(I'm eating) Chinese food.*

*Which shirt do you prefer?
(I prefer) the blue shirt.*

PROOFREAD

PRESENT

STEP 1

BRAINSTORM

- Think of the topic carefully and create a mind map to help you come up with ideas or words related to the topic.

STEP 2

PLAN

- Decide which of the ideas in **Step 1** you would like to include in your project and make a plan to use as a general guide.

STEP 3

RESEARCH

- Do research on the topic. Read books, use the Internet, watch videos or documentaries or even visit a museum.
- Note down key words and important information you have found. Remember: you mustn't copy the information. Use your own words to summarise the ideas.

STEP 4

CREATE

- When you have collected all the information, start working on your project.
- Make your project interesting. Think of a title and find pictures or draw your own.
- You can also write captions underneath the pictures to describe them.

STEP 5

PROOFREAD

- After you finish, proofread your work.
- Make sure you have included all the information and ideas you chose in your project.
- Check your spelling, grammar, vocabulary, etc.

STEP 6

PRESENT

A presentation consists of **3 stages**:

Stage 1: Before the presentation

- Practise presenting your work in front of a mirror or to a friend. This will help you feel more confident.

Stage 2: During the presentation

- First, introduce the topic. (*I would like to talk about... / I am going to talk about...*)
- Use short and simple sentences.
- Speak clearly and confidently.
- Smile at the people in the audience (your classmates) and make eye contact.

Stage 3: After the presentation

- Ask the audience if they have any questions and try to answer their questions. (*Any questions?*)
- Don't forget to thank the audience. (*Thank you for your attention.*)

TIP!

Use the following checklist with the things you need to do. Tick (✓) the boxes when you do them.

Project checklist

- mind map

Learning Tips

In class

How to learn better in class

- Look at your teacher and the board and take notes.
- Listen carefully to your teacher and the CD.
- Ask your teacher when you don't understand.
- Speak in English as much as possible.
- Take part in pair and group work activities.

Outside the class

How to learn better outside the class

- Read the dialogues and texts from your book.
- Read the dialogues and texts aloud and sometimes record yourself.
- Study the vocabulary and grammar and then do your homework.
- Read selected texts from English magazines and newspapers.
- Read English websites.
- Watch English TV programmes and DVDs.

Vocabulary

How to learn vocabulary better

- Write down new words in a notebook.
Together with the English word:
 - write the translation in your language,
 - write an example sentence,
 - draw or stick a picture.
- Put words in groups or use diagrams.
- Learn whole phrases (e.g. verb+noun) not just individual words.
- Learn new words in context (in sentences describing situations). This way, it is easier to remember them.
- When you learn new words, write down if they are verbs, nouns, adjectives, etc.
- When you learn new words, it's a good idea to also learn any corresponding synonyms and/or antonyms.
- Refer to the Wordlist.
- Practise the spelling and pronunciation of new words.
- Look up unknown words in a dictionary.
- Regularly revise words you have learnt.
- Try to use words you have recently learnt when you speak or write.

Grammar

How to learn grammar better

- Refer to the Grammar Reference.
- Use grammar tables.
- Have a grammar notebook. In it write:
 - tips and/or rules in your language,
 - example sentences,
 - important grammatical points e.g. *irregular verbs*.
- Make a note of grammatical errors that you often make.

Speak

How to do better when doing speaking tasks

- Before you speak, make sure you understand the task and how you should use the prompts.
- Look at the example and use the prompts given.
- Use the language you have learnt.
- Speak only in English.
- Speak clearly.
- Don't worry if you make a mistake. Correct yourself if you can, otherwise continue speaking.
- If you can't remember a word, don't stop. Try to use other words. For example, when you don't know what something is called, try to describe its shape, what it's made of, what it's used for, etc.
- When you are talking with someone, make sure you contribute to the conversation but also pay attention to what the other person is saying.
 - Listen carefully to him/her and show that you are following what they are saying by using phrases like **I see**, **Uh-huh**.
 - When you hear good news, raise your tone of voice to sound excited and enthusiastic, and use phrases like **Really?**, **How exciting!**
 - When you hear bad news and want to express sympathy, lower your tone of voice to sound more serious, and use phrases like **What a shame!**, **Poor you!**
 - To keep the conversation going, respond to what the other person is saying by asking questions, by expressing your opinion, agreeing, disagreeing, etc.

Read

How to do better when doing reading tasks

- Before you read, try to predict what the text is about with the help of the title and the pictures.
- Look for key words in the text to understand the main ideas.
- Keep in mind that a text will most probably include unknown vocabulary. There's no need to panic. It does not mean that you won't be able to understand the text as a whole.
- Try to understand which of the words in the text are really important. Try to guess the meaning of as many of these words as possible from the context.

Use the following strategies:

- Read the words before and after the unknown word and think of the context.
- Try to figure out if the unknown word is a verb, noun, etc.
- See if the unknown word is similar to other words in English or in your own language.
- Read the text quickly to understand the main idea.
- Read the text carefully to understand specific details.
- Make sure you understand who or what the pronouns (**he, it, this, them**, etc.) and the adverbs (**here, there**, etc.) refer to in the text.
- Decide in which part of the text you can find the information you need.
- Remember that sometimes the answer you are looking for is not clearly stated in the text, but is implied.
- Don't be in a hurry to answer a multiple choice question. Read each question carefully to get an idea of what you are looking for, and underline the section in the text where the answer is found. Make sure you have chosen the correct answer by eliminating the wrong options.
- When completing a text with missing sentences, read the whole text first and then the sentences given. Pay attention to the development of the story, the vocabulary, as well as to pronouns (**it, they, this**, etc.) and words/phrases which link sentences (**however, later**, etc.) both in the text and in the sentences given.

Listen

How to do better when doing listening tasks

- Before you listen, read the rubric and look at the pictures carefully. Try to predict what the speakers are going to talk about.
- Before you listen, read the statements or questions carefully. This will give you an idea of what to listen for. Also, make sure you haven't got any unknown words.
- While listening for gist, try to understand the general idea, not every single word.
- Listen for key words to help you understand the main ideas. Also, pay attention to the speakers' tone of voice to understand how they are feeling.
- Don't be in a hurry to answer a multiple choice question. Listen carefully till the end and check all the options before your final decision. Don't think that an answer is correct just because you hear the same words that are in the activity.
- When you have sentences to complete, read them first and try to predict what kind of information is missing, as well as the part of speech of the missing words (noun, verb, adjective, etc.). After you have completed the sentences, read them again. Make sure that they make sense and that the words are in the correct form (singular or plural form of the noun, correct form of the verb, etc.).

Learning Tips

Write

How to do better when doing writing tasks

- Make sure you understand what you are asked to write.
- Before you start writing, think about the topic carefully and try to come up with ideas which are relevant to it. Make notes of the information you want to include. You can also make a mind map to organise your ideas.
- Plan your paragraphs. Before you start, think of the ideas you are going to include in each paragraph.
- Group relevant information together and put it in the same paragraph.
- Do not write very short sentences. Join your ideas with appropriate linking words: **and**, **but**, **so**, **because**, etc.
- Use linking words/phrases to add something or list points (e.g. **to begin with**, **in addition**, **lastly**), to express contrast (e.g. **but**, **however**), to express result (e.g. **as a result**) and to give reason (e.g. **that is why**). This will make your writing flow.
- Use time linkers (e.g. **first**, **then**, **next**, **after that**, **later**, **when**, **before**, **while**, **as soon as**, **by the time**) to show the order in which events happen.
- Use a variety of adjectives (e.g. **fascinating**, **shocked**) and adverbs / adverbial phrases (e.g. **unfortunately**, **all of a sudden**) in your writing to make it more interesting.
- Use pronouns (e.g. **he**, **she**, **it**, **them**, **there**, **this**) to avoid repeating the same words.
- When writing a note, keep the text short and give only the necessary information. Remember that you don't have to write full sentences. Make sure the other person will understand your message, though.
- When writing an informal email/letter:
 - make sure you understand why you are writing (to thank, to apologise, to describe an experience, etc.) and who you are writing to so that you respond suitably.
 - don't forget to use appropriate phrases to begin and end your email/letter.
 - use informal language and expressions (e.g. **well**, **of course**, **you know**).
- When writing a formal email/letter:
 - use appropriate greetings and signature endings.
 - use formal language and do not use short forms or abbreviations.
- Write neatly.
- Write your first draft and correct it. Check punctuation, capital letters, spelling, word order, grammar, vocabulary, linking words, paragraphing and style (formal - informal language). Then write your final draft and edit it once more.
