

Our green earth

**The sky is painted blue**

I'm glad the sky is painted blue  
And the earth is painted green,  
With such a lot of nice fresh air  
All sandwiched in between.

The sky is painted blue.

The earth is painted green.

What do you know about trees? Say five facts. Then listen and read to learn more facts.

## Presents from a tree

① The green **leaves** reach high into the air. They clean the dirty air. They give us fresh air to breathe.

② Some trees give us **fruit**, like lemons and cherries. Other trees give us nuts.

③ People use the **wood** to make fires for cooking and for warmth. They build houses and boats and furniture. They use wood to make paper.

④ The **roots** reach down into the ground. They hold the soil in place for other plants and grass.

**Write  
The Parts  
of the tree:**

A cross-section diagram of soil. On the left, a large tree trunk is shown with its roots extending deep into the ground. The soil is depicted in shades of brown and tan, with some rocks scattered throughout. In the bottom right corner, a red ant with large eyes and yellow feet is shown walking on a path. The word "Soil" is written in the top right corner, and the word "roots" is written in a blue box in the bottom left corner.
