| A                                                                                                                                                                                    | 20 |   |
| B                                                                                                                                                                                    | 40 |   |
| C                                                                                                                                                                                    | 50 |   |

### السؤال الثاني:

أجب عن الأسئلة، واكتب إجابتك في المساحة المخصصة للإجابة:

|  | (3) الدرجة | (1) السؤال رقم                                                                                                                                                                                                                                              |
|--|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  |            | <p>أكمل الجملة العددية واوجد ناتج الطرح:</p> <div data-bbox="354 747 1438 1121"><p>_____ عَشْرَات - _____ عَشْرَات = _____ عَشْرَات</p><p>_____ - _____ = _____</p></div> |

| (1) الدرجة | (2) السؤال رقم |
|------------|----------------|
|------------|----------------|

أستعمل لوحة المئة لإيجاد ناتج الطرح:

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 41 | 42 | 43 | 44 | 45 | 46 | 47 | 48 | 49 | 50 |
| 51 | 52 | 53 | 54 | 55 | 56 | 57 | 58 | 59 | 60 |
| 61 | 62 | 63 | 64 | 65 | 66 | 67 | 68 | 69 | 70 |
| 71 | 72 | 73 | 74 | 75 | 76 | 77 | 78 | 79 | 80 |

$$80 - 30 = \boxed{\phantom{00}}$$

(3) السؤال رقم

(1) الدرجة

اوجد ناتج الطرح مستعملا لوحة العشرات:

$$26 - 10 =$$
