Camels are beautiful animals. They can be different colours and can run quickly.

People like to watch camels because they are strong and powerful. The mother camel generally has one baby camel. Camels have long legs, and big eyes. Their eyes have long eyelashes to protect them from the heat and the sand.

There are two types of camels. Some camels have one hump. Other camels have two humps. Camels store fat in their humps so they can stay a long time without food or water. Camels are strong animals. They can carry heavy loads and can bear the heat of the desert. They have feet which enable them walk on the sand easily. The camel milk is very healthy. It is nutritious as it has many elements which are good for the body. The Arabs are interested in keeping camels. Nowadays, camels take part in races. The Qatari are fond of having good breeds of camels.
