c I don't have much free time at the moment. I read ⁽⁴⁾ most nights after school as I enjoy exciting stories.

d Most weekends I meet up with my friends ⁽⁵⁾. We play video games ⁽⁶⁾ together if the weather is bad and we can't go outside. If the weather is OK, we go out on our bikes. I can't stand being outside when it's cold and raining – I hate it!

Vocabulary

rainstorm: cloudy weather with lots of rain, sometimes also thunder and lightning

windproof: doesn't let the wind through

10-year-old Emirati inventor

LONDON // Even the wet British weather inspires the 10-year-old Emirati inventor, Adeeb Al Blooshi.

The young scientist is on a world tour to help him develop his other inventions, which include a prosthetic limb for his father and a housework robot for his mother.

During Adeeb's visit to London, his inventor's mind was thinking hard about one of Britain's biggest problems: the rain.

Caught in a rainstorm in the capital city of England, Adeeb's sister, Dana, was holding an umbrella that blew inside out because of the strong wind.

That made Adeeb think about how to create a windproof umbrella, with a different shape to make it much stronger. "They didn't sell umbrellas that have protection against the wind," he said. "So I'm working on that. But then again, in Dubai it's not going to be very useful. We don't have much rain. We have too much sun."

- A Hello everyone. Today I'm going to describe my idea for an invention. It will change ⁽¹⁾ the way we do our homework. It will improve ⁽²⁾ our school work and exam results too!
- B My idea is called the Brain Pen. It is a pen that is powered by your brainwaves. You won't need to hold the pen – you just think about what you want to write and the pen will write it for you. The pen will write as fast or as slowly as you want it to. You will be ⁽³⁾ more relaxed when you do your work because you won't have to ⁽⁴⁾ write with your own hand!
- C The pen will be connected to headphones. The pads on the side of your head will pick up your thoughts; then the words will be transmitted to your pen through a wire and it will write them down.
- D This invention will make ⁽⁵⁾ our school work easier because we won't need to worry about writing quickly or neatly. If you have a lot of writing to do, your hand won't get ⁽⁶⁾ tired because the Brain Pen will do all the work.
