
City : Development mostly happens in city so here we can get any things that we need, good hospitals, schools, good companies. We can get more job in here and we can become rich in small time. Every peoples have good knowledge and every things we can get easily . But in city the pollution is more and we cannot get fresh air. and relation between peoples will become reduce and children's become addict to phone and other social medias, games etc

Village : Village life is one of the best memorable and best life. here we get cool and clean water, air etc. No pollution and every one will cooperate with each other and make good relationships. Less disease and more comfortable in life. No need to worry about pollution and always get water. The negative side of village is there we can get good education and good treatments. No development things has to be there.
