The Sun

1- Scientists know many things about the Sun. They know how old it is. The Sun is more than 4½ billion years old. That would be too many candles to put on a birthday cake!

2-They also know the Sun's size. The Sun may seem small, but that is because it is so far away. It is about 93 million miles (150 million kilometers) away from the Earth. The Sun is so large that the diameter of the Sun is 109 times the Earth's diameter. The Sun also weighs as much as 333,000 Earths.

3-The Sun is made up of gases: 75% hydrogen and 25% helium. Hydrogen is the simplest and lightest of all of the known elements. When you combine hydrogen with oxygen, you get water. You probably know what helium is. It is the gas that can be put into balloons to make them stay in the air and float.

A .Read the text and match the headings (a/d) to the paragraphs (1-3) :- (3 marks)

paragraphs	Headings
1-Paragraph	a. Sun size
2-Paragraph	b. Sun age
3-Paragraph	c. Sun elements

B . Read the text again and complete the table :- (3marks)

Questions	Answers
4 . How old id the sun?	
5. How far is the sun from the earth?	
6 . What is the sun made of ?	

C . Read the text and find the details that match the sentences :- (4 marks)

water	Wight	gas	sun	helium
-------	-------	-----	-----	--------

7. The Sun as much as 333,000 Earths.
8. 25% of the sun made of.....
9. When you combine hydrogen with oxygen, you get.....
10. Helium is a.....

Air	USA	tracks	sea	world
-----	-----	--------	-----	-------

7. Tram is a kind of bus that goes on

8. Hovercrafts are called transport.

9. transport is the fastest way of transport.

10. A Subway is a means of transport used in

Daisy's journey to school

Paragraph 1:

All over the world, children get to school in lots of different ways. But for eleven-year-old Daisy, who lives in Colombia there are only two ways she can get to school - a two-hour walk through the jungle or a one-minute zipwire ride down .

Paragraph 2:

She is the oldest child in her family and she has to help her two younger brothers get safely to the other side too. She fixes her brothers, one by one, onto the zipwire and sends them down. Then she follows them.

Paragraph 3:

She travels down very quickly. Daisy makes the journey every day, but this doesn't make it any easier. She says that she still gets nervous every time she rides over the treetops to get to school.

1-Read the text and match the headings (a-d) to the paragraphs (1-3) .Write the letters on the lines . You do not need to use all the headings.

Paragraphs

1-paragraph 1_____

2-paragraph 2_____

3-paragraph 3_____

Headings

a)Daisy's feeling about zipwire

b)Daisy's home location

c)Daisy is a caring person.

d)Daisy's friends

2-Read the text again and complete the table.

Questions	Answers

5-How does Daisy get to school?	
6-What does Daisy feel when she rides to school ?	

3-Read the text and find the details that match the sentences .

Village	school	jungle	treetops
---------	--------	--------	----------

1-Daisy rides over it by zipwire . _____

2-Daisy live in it . _____

3-Daisy goes there to learn. _____

4-The long way to school. _____

Roly-Poly Pill Bugs

1- Some people are afraid of bugs such as spiders or beetles. But there is one bug that just about everybody likes—pill bugs. If you ever pick one up, you know why its nickname is “roly-poly.” A pill bug rolls up into a tight little ball to protect itself. This bug is scared of you, not the other way around!

2- These little gray or brown bugs can be found almost everywhere in the United States except the desert. That is because they need to stay humid. But they can live in dry places like California. Thanks to lawn sprinklers, one of their favorite hang-outs is under damp flower pots.

3- Pill bugs also have something in common with snakes. Just as snakes shed their skin when it gets too small, pill bugs do too. This is called “molting.” A pill bug molts about five times until it is full-grown. Pill bugs are a little like owls, too. Pill bugs are nocturnal, meaning they are most active at night. That is when they most like to walk around and look for food. Pill bugs aren’t just nice bugs. They are also interesting ones!

1-Read the text and **match** the headings (**a-d**)to the paragraphs (**1-3**) .Write the **letters** on the lines . You **do not** need to use all the headings.

Paragraphs

1-paragraph 1 _____

2-paragraph 2 _____

3-paragraph 3 _____

Headings

a) Pill bugs habitat

b) Pill bugs nickname

c) Facts about Pill bugs.

d) Molting

2-Read the text again and complete the table.

Paragraph about comparison of two different transport (bus, car)

Both cars and buses are types of transport.

They have some similarities and differences. Both cars and buses have wheels, breaks and gears. Both of them work on land and they cannot fly or sail.

However, there are differences between the two. Cars have four doors and can carry five persons. Buses have two doors and be able to carry more people.

I like traveling by car because it is fast and more comfortable.

Write a paragraph of around (50 – 70 words) where you compare two different means of transport (tram , ferry).

Write a paragraph of around (50 – 70 words)
where you compare two different means of
transport (plane , tuck tuck).

Tuck tuck and plane both of them are transport. They have some similarities and differences.

Both the plane and tuck tuck have wheels, gear and seats. However, there are many differences. Tuck tuck goes on the land and it doesn't have doors. Also, there are only three seats but the plane goes on the air. It has many seats and it is very fast.

I like to travel by plane because it is very fast.
