*Think about two reasons of why do Angels exist?*

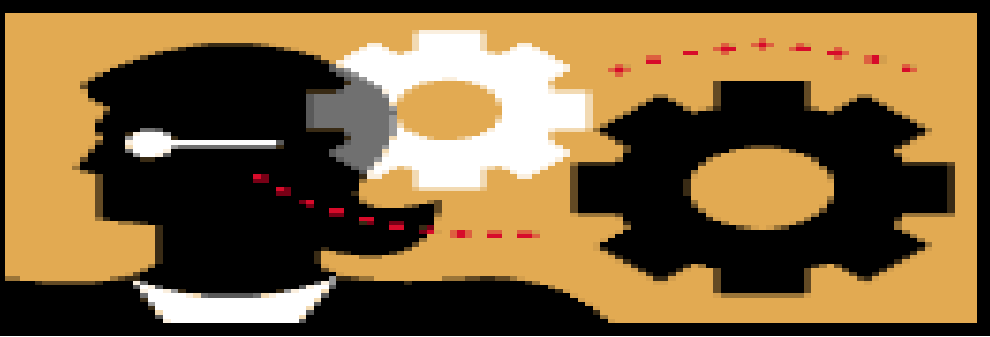

**2 Min in  
pairs**

AHSL

# Islamic Studies

- *Angels are part of the unseen world, they were created of light by Allah (SWT), they may have more than one form of appearance.*
- *They don't become sick or die, they have no need of food, sleeping or resting.*
- *They only worship Allah (SWT) all the time, never make sins and they don't have the ability to disobey Him.*

# Islamic Studies

- ***Although angels are sins-free, they are not divine.***
- ***In other cultures, its very common to draw angels as babies or beautiful ladies with wings, in Islam, we are not allowed to portray them.***
- ***The reason is because we cannot see them and don't know how they look like.***

# Islamic Studies

Angels have one and only purpose  
of existence which is

**TO WORSHIP ALLAH (SWT)**

**NON-STOP ALL THE TIME!**
