

READING COMPREHENSION**(10 marks)**

Emily Cummins began inventing when she was only four. She enjoyed making things from waste materials, like making toys from old things she found in her grandfather's garden. As she got older, she learnt more about different materials and how to use different tools. She was working on a school project when she had an idea to help millions of people-a small portable fridge to keep medicines or small food items clean, dry and cool.

QUESTIONS

1-What is the name of the inventor?

.....
