### General Notes

- For this semester, you will continue teaching the core resources with its components. Make sure to exploit all the supplementary resources such as (**Interactive CD, Flashcards, Self evaluation sheets and the online links**).
- 15 blocks will be dedicated to each module.
- Kindly, consider the last block in modules **7** and **9** as an enrichment class to develop students' literacy skills (Reading and Writing). You are free to select the appropriate material that suits your students' needs.
- Focus on the competencies that are tackled in the introduction of the Teacher's Book and that are represented in symbols next to each activity in SB and WB.
- Focus on the values that are tackled in the Teacher's Book and the matrix of values.
- Refer to the differentiated instruction section in the introduction of the teacher's book and across the modules.
- It is essential to exploit the "Grammar Reference " to focus on what students need to acquire.
- Make use of the WB for various purposes such as differentiation and formative assessment.
- Tests are available in PDF and word document, so that teachers have the ability to add, omit or change the order of the items and/or activities according to the needs of their students (modifiable tests).
- During the mid-term exam, you are supposed to **continue teaching module 8** to avoid any delay.
- For further details, you may need to visit our webpage using the link below:
