

Lesson 1 Weather All Around US

Weather

Is what the sky and air are like each day.

The weather changes from day to day

يتغير الطقس من يوم لآخر

How can the weather be?

Sunny	Cloudy	Rainy	Snowy	Foggy	Windy
					

Temperature: is how warm or cold air.

الحراره : مدى سخونه أو برودة الهواء

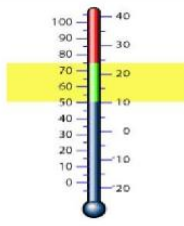

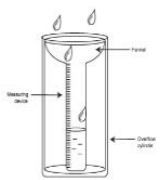

Wind: is moving air.

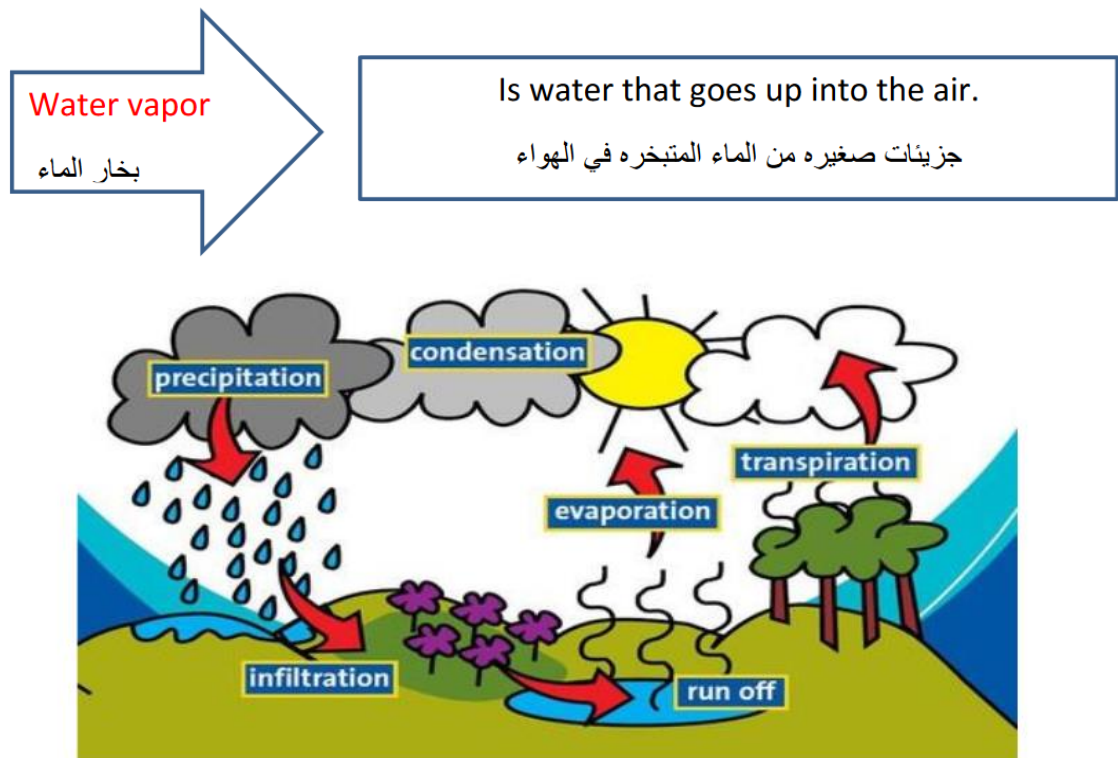

الرياح : الهواء المتحرك

You can use tools to measure weather: أدوات قياس الطقس

<p>-Wind meter مقياس الرياح Measures wind speed. سرعه الرياح</p>	<p>-Thermometer الترمومتر measures temperature. درجة الحرارة</p> 
<p>-Rain gauge مقياس المطر measures how much rain autumns. كمية الامطار</p> 	<p>-wind swivel دواره الرياح shows the direction of the wind اتجاه الرياح</p> 

Lesson2 Water cycle:

التبخر بسبب حرارة الشمس. evaporation due to heat of the sun.

التكثف بسبب بروده. - condensation due to the coldness of the sky.
السماء
