Introduction

This booklet is provided by the Ministry of Education (MOE) to the students of the fourth grade with an essential summary of English language textbook (Action Pack 4) for the second semester. This summary is designed to reinforce self-learning and to compensate what students in Jordan schools missed for varied reasons.

Self-learning is defined as an acquisition of knowledge, skills, and experiences for individuals in a self-process way by relying on themselves. It aims at improving and developing the autonomous learners' personality, abilities and skills by practicing a collection of instructional activities.
