The importance of sleep

Sleep is an essential part of life . Although we think of sleep as a time when we rest completely it's actually a very busy period for the brain. Scientists claim that sleep is the time when information is stored and stored by the brain Sleep is important for reducing stress and keeping the heart , the immune system and the memory healthy .Scientists have already identified five sleep stages by studding brainwaves , Stage 1 is when we begin to fall asleep. The brain tells the muscles to relax and the heart to beat slowly . (2)

This stage makes up about 5% of a young adults sleeping time . Stage 2 is a period of deeper sleep ,The heartbeat and breathing become slower , This stage makes up about 44% to 55% of a young adult's sleeping time .

Stage 3 and 4 are when we sleep most soundly , Now the brainwaves and heartbeat are at their slowest and our muscles become very relaxed . We might have some dreams in this stage , which makes up about 15% to 23% of a young adult's sleeping time .Stage 5 is called the REM (Rapid Eye Movements)stage .Although our body is resting , our eyes are moving very quickly beneath our eyelids during this stage , Our heartbeat and breathing become faster and this is when dreams are most frequent ,This stage makes up about 20% to 25% of a young adult's sleeping time .

Eid al - Adha is a celebration that begins on the 10th of Thu al-Hijjah , according to the Islamic calendar . Muslims celebrate this event for four days . They wear their best clothes for Eid prayer and then greet one another after prayer is over . Fatima visit each other , and children receive gifts . (34)

Family members usually gather together for a celebration of delicious Jordanian foods , such as the special dish called mansaf .This years , I am spending Eid al - Adha with the whole family at Aqaba . We are going to visit Aqaba Museum and Aqaba Castle. All the family members of all ages will join in . What's most important about Eid al-Adha is its spiritual significance . Muslims slaughter lambs and give them to the poor and to relatives as an act of kindness . Eid al-Adha is a time when people remember the importance of sacrifice , prayer and obedience to Allah.

Welcoming new babies Around the world

قطعه صفحه : (22)

In Germany , newborn baby girls are likely to be welcomed into the world with a tree-planting party , the baby's relatives typically plant two trees , which are then chopped down and sold when she gets engaged ,The proceeds from this tree-planting venture are then used to buy her wedding dress .

In Germany , German government has come up with list of accepted names , which parents are expected to choose from when they name their child .

In Turkey , new mothers might well ask you not to give them gifts until the baby has been born , when a mother has given birth , she is supposed to stay inside with her baby for 28 to 40 days , this is to protect the baby's immune system and develop the bond between mother and baby , After this period , mother and baby will be capable of going out to visit neighbors and family ,this is when you should give them gifts .

In Bali , You won't see a newborn baby lying on a blanket in any homes ,tradition there means that relatives are willing to carry the baby around for about 100 days at the beginning of his or her life , This period of healthy and holding might well last longer than this , as well .

In Saudi Arabia , new parents are likely to shave the head of

their week-old baby , and then weight the hair , the parents are expected to give gold and silver to charity after the birth , to thank God for blessing them with a child , The weight of the hair should be equal to the amount of gold and silver that is given , This custom might well from a part of an aqiqah or welcoming ceremony , where the baby is given his or her name .
