Grammar Practice Book

MACMILLAN

A note to teachers, parents and children

Welcome to the *English World* Level 6 Grammar Practice Book.

As in previous levels, this book contains a variety of activities which practise the grammar points of the Pupil's Book and Workbook. There are also activities which practise writing skills and spelling.

There is a unit in the Grammar Practice Book for each unit in the Pupil's Book and the Workbook. There are three pages in each unit:

- **Page 1 of each unit** practises the **main grammar point** of each unit.
- **Page 2 of each unit** practises the **Grammar in Conversation point**.
- **Page 3 of each unit** practises the content of the *Use of English* activity in each unit.

There are **Review pages** after every two units. The Review pages practise the grammar and spelling from the previous two units.

Each grammar activity in the Review units has a score out of 5. The spelling activity has a score out of 10. This gives a total score out of 35. The children write their score for the Review pages in a box on the page.

The Review units also have a **Your Writing Page**. These pages help the children to

- complete simple three-paragraph texts.
- understand the use of paragraphs in written English.
- write texts in paragraphs.

When all the activities in each unit are complete, the Grammar Practice Book will be a useful reference and revision aid for the children. The series of Grammar Practice Books builds up into a complete record of the grammar in *English World*.

The children can keep their Grammar Practice Books and use them for reference in later levels of *English World*. In this way, they develop good study skills and make an important step to becoming independent learners.

English World

the adventure starts here!

English World is an integrated print and digital English course for primary schools. Written by the authors of the best-selling *Way Ahead* and *Macmillan English*, the course aims to give learners confidence in speaking, listening, reading and writing. Thorough grammar and skills work is applied in natural contexts in the real world through dialogues and cross-curricular material. Independent learning is promoted through portfolios, projects and the use of the dictionaries.

The visually stunning printed resources are complemented by electronic materials for use with an Interactive Whiteboard and videos of all dialogues using native-speaker students in context, together with a complete teacher training package with video masterclasses. Other features include a testbuilder, animated listening stories, interactive spelling activities and singalong versions of songs.

In Levels 5 and 6 of *English World*, the reading text is the vehicle for the target grammar and structure and there is a greater focus on cross-curricular themes and content. Level 5 is for students who are developing a greater awareness of the world around them and can use all four skills in a flexible and appropriate manner.

'We believe that learning should be enjoyable - hard work, too, but at the same time something that children will find interesting and motivating.'
