General Notes

- Make sure to conduct a **diagnostic test** during the first week.
- Refer back to the **literacy plan** meant to improve reading and writing skills, so that you plan your lessons based on the procedures as warm up or closure activities.
- Make sure to avoid including any **vocabulary** words linked to enrichment lessons in the final exams.
- It is essential to exploit the "**Grammar Reference** " to focus on what students need to acquire.
- Make use of the **round-up** activities in **SB** and **WB** for various purposes such as differentiation, formative assessment, and in revision lessons.
- Focus on the **competencies** that are tackled in the introduction of the Teacher's Book and that are represented in symbols next to each activity in SB and WB.
- Focus on the **values** that are tackled in the Teacher's Book and the matrix of values.
- The order of Phonics lessons has been changed in order to be taught at the end of the module. In addition to that, make sure to dedicate 15 minutes of each phonics lesson to conduct a **module test** based on the content taught in each module.
