Practice #1: Choose the correct word(s) to complete the sentence.

Ocean

An ocean 1 (is – are – was) a large body of salty water. Many animals and plants 2 (live- lives- lived) in the ocean. Some ocean animals 3 (has - have – had) special parts to help them live in the water. Fish have fins and tails to swim. They have gills to breath. Seas are smaller bodies of salty water that have many types of plants and animals, too. There 4 (is – are – were) seas on earth. Some seas that are near 5 (a- an – the) United States are: the Caribbean Sea, near Texas, Florida, Alabama, Mississippi and Louisiana. The Bering Sea is near Alaska. The world 5 (has – have – had) five oceans. They are: Atlantic, Antarctic, Indian, Pacific and the Arctic. Two 6 (ocean – oceans – oceans) that are near the United States are the Pacific 7 (in - on – at) our west coast and the Atlantic on our east coast.

Practice #2: Choose the correct word(s) to complete the sentence.

Ocean

Did you know, water 1 (cover – covers – covering) almost 71% of our planet? We call this water ocean. There 2 (is – was – are) five big oceans: the Atlantic, Antarctic, Indian, Pacific and the Arctic Ocean. The pacific is the 3 (larger – largest – large) ocean. It has about 25000 islands. The Indian Ocean is the warmest. The Arctic Ocean is the smallest. Oceans can 4 (be – is – are) very deep and dark. Some fish even have their own light to 5 (help – helps- helping) them find food. People can't 6 (swim – swims – swimming) to the bottom of the oceans, so scientists 7(use – uses -used) submarines to explore those areas.

Practice #3: Choose the correct word(s) to complete the sentence.

Desert

Deserts 1 (is- are – were) the direst places on Earth- they get very little rain a year. Some deserts can 2 (get- gets – getting) a lot of rain and then it may not rain again for months or even years! Some 3 (am – is – are) superhot in the day, but they can get colt at night. Deserts aren't 4(always, never, rarly) hot. The biggest desert in the world is Antarctica! If you 5(think – thinks – thinking) nothing can live in a desert, you are wrong! Many deserts 6(has – have- had) lots of plants and animals that have adapted to live with little water.

This is a cactus plant. It 7(store - stores – stored) water in its stems. When it 8 (don't – didn't - doesn't) rain it can survive with the water it has inside.

This coyote lives in the desert. It stays in a burrow underground in the day and 9(come – comes – came) out at night to hunt.

Practice #4: Choose the correct word(s) to complete the sentence.

Amazing animals

All animals can 1(breathe – breathes- breathed) and move, but they're different in many amazing ways. All birds 2(has – have -had) two legs, two wings and feathers, and most birds can fly. The wings and feathers 3(help – helps – helped) them fly and the feathers help keep them warm. Birds lay eggs with hard shells. They keep the baby birds inside safe from animals that want to eat them. Fish have gills to help them breathe 4 (on – in- at) water. Scales all over their bodies help keep them safe from 5 (dangerous - dangerous – deangerous) fish that want to 6 (bite - bit – bites) them. They don't have legs, but their fins and tails help them swim. Fish lay their eggs in water. And their eggs 7(is – are – was) soft. Amphibians are very interesting because they can 8(live – lives- lived) on land and in water. Amphibians 9(need – needs – needed) to have wet skin, so they live in wet places. They lay their soft eggs in water. They have gills when they are young and the gills help them breathe in water. Most amphibians like frogs have legs that help
