Paragraph 1

When Faisal was a small boy, his parents would take him to museums and galleries. He showed an interest in ceramics and sculpture but would spend most of his time looking at the paintings. Faisal's parents noticed his passion for art and bought him paints, pencils and other artist's materials, so that he could create his own paintings and drawings. Then, when Faisal was fifteen, his father gave him a camera and, from that time onwards, taking pictures became his main leisure activity. This interest might explain why he studied animation and digital art at university.

Paragraph 2

These days Faisal prefers to paint and he had his first exhibition last month at a small, local gallery. People asked him: 'Which artists have inspired you the most?' and Faisal replied that the main artist who really played a role in developing his own technique is Vincent van Gogh. The European Union (EU) is a unique political and economic community with supranational and intergovernmental dimensions. It is composed of twenty-seven member states primarily located in Europe. In 1957, six European countries formed the European Economic Community (EEC) by the Treaty of Rome. Since then the EU has grown in size through the accession of new member states and has increased its powers by the addition of new policy areas to its remit. In 1993, the Maastricht Treaty established the base of the current legal framework.

The EU created a single market which seeks to guarantee the freedom of movement of people, goods, services and capital between member states. It maintains a common trade policy, agricultural and fisheries policies, and a regional development policy. In 1999 the EU introduced a common currency, the euro, which has been adopted by thirteen member states. It has also developed a role in foreign policy, and in justice and home affairs. Passport control and customs checks between many member states were abolished under the Schengen Agreement. With over 492 million citizens the EU generates an estimated nominal GDP of €8.6 (\$10.7) trillion in 2007. It represents its members in the WTO and observes the G8 summits. My hobbies

Hello!

My name is Nora and I live in Sweden. I live in a small village in the mountains. I love mountains and I can't imagine my life without them. I live with my parents and my little sister. She is six and I am eleven.

My mum's name is Helen and my dad's name is Nick. My mum is a fitness coach at my school and my dad is a farmer. We have a small milk farm. That's why I am fond of sports and animals.

I get up at 6.30 and do my morning training together with my mum. Then I wake my sister up. We have a big breakfast and our mum takes us to school by her car.

After lessons I stay at school to practice basketball. It's my favourite sport. At that time my sister trains at the singing club. After that I go home with my sister by bus because my mum has some evening trainings.

After school I like to help my dad to take care of calves. They are so nice! In the evening I like reading books or going out with my friends. We are crazy about riding bikes at the weekend. I have got a cool green bike. I think I am the best bike rider because I go in for sports every day.
