Worksheet 2

❖ **Directions: Read the passage and answer the questions.**

Everyone loves trees. Children love to climb them and make tree houses. Many people enjoy walking in forests, but trees are not there just for fun. They're very important.

Trees give us Oxygen. We can't live without them! Trees also clean the air.

Trees are important for birds, insects, and other animals. Different animals and insects make their homes in trees. Trees also give them food.

People get a lot of things from trees, too! We get fruit, nuts, and wood.

Today trees are disappearing. There are many forests fires every year. People also cut down trees because they want to build houses and roads and make paper. Did you know that every second an area of forestland as big as two football fields disappear?

We must look after trees. One thing we can do is recycle. A family with two children can save six trees every year by recycling!
