Grade 7

Academic year 2021-2022 - First semester

مادة اثرائية للصف السابع منبثقة من البرنامج الأكاديمي

Practice Makes Perfect لرفع التحصيل الأكاديمي

2nd Report

English department

Practice makes perfect

Student's Name:

Class: 7/.....

Read the following passage and answer the questions that follow.

Daniel was so excited he was almost bouncing in the backseat of the car. It was his first trip to Disney World, At first it wasn't too bad. He played all the silly car games he could think of with his brother Emmet and his parents. They found all the letters of the alphabet in different signs along the highway.

After that, Daniel took a nap out of sheer boredom. But he couldn't sleep any longer, and they were still hours from Disney World. "Are we—" "No, Daniel," his father said.

"Please try to be patient. You were the one who picked the vacation spot this year.

"You want to hear about torture?" Dad asked. "When I was about your age, Daniel, Grandma and Grandpa took your aunt Jan and me to Disney World. Grandpa ran over a nail and we got a flat tire. Luckily we had a spare, but it took forever to change the tire.

Daniel laughed, picturing Grandpa running across the road looking for the lug nuts.

"Grandpa must have been really mad!" "Oh, he wasn't happy, but it gets worse," Dad said. "About fifty miles later, the engine died. Grandpa had to walk three miles to get to a pay phone and call for a tow truck." "Why didn't he use his cell phone?" Daniel asked. Dad laughed. "We didn't have cell phones back then."

"You must have been happy to get back on the road," Daniel said. "Yes, we were," Dad said.

1. Why was Daniel very excited?

- A. because he was looking at museums
- B. because of the car race in the streets
- C. because he is visiting the biggest mall
- D. because it's his first trip to Disney World

2. What did grandpa have to do when the engine died?

3. What didn't grandpa use his cellphone before?

Read the following passage and answer the questions that follow.

The Solar System is made up of all the planets that orbit our Sun. In addition to planets, the Solar System also consists of moons, comets, asteroids, minor planets, dust and gas. The inner solar system contains the Sun, Mercury, Venus, Earth and Mars. The main asteroid belt lies between the orbits of Mars and Jupiter. The planets of the outer solar system are Jupiter, Saturn, Uranus and Neptune (Pluto is now classified as a dwarf planet).

Everything in the Solar System orbits around the Sun. The Sun contains around 98% of all the material in the Solar System. The larger an object is, the more gravity it has. Because the Sun is so large, its powerful gravity attracts all the other objects in the Solar System towards it. At the same time, these objects, which are moving very rapidly, try to fly away from the Sun, outward into the emptiness of outer space.

The result of the planets trying to fly away, at the same time that the Sun is trying to pull them inward is that they become trapped half-way in between. Balanced between flying towards the Sun and escaping into space, they spend eternity orbiting around their parent star.

10. What is the text MAINLY about?

- A. The Solar System
- B. How do people get heat
- C. Where do planets go around
- D. How does the sun give energy

11. What are the planets of the outer solar system?

12. Which of the following is the closest in meaning to the underlined word?

Everything in the Solar System orbits around the sun.

- a. move
- b. disappear
- c. wait
- d. build
