**Students at Caterfield Sports College study the same subjects as other students, like maths, physics, history, etc., but they do a lot more sport.**

Caterfield is a great school. At the beginning of the year, we choose three sports, and we have lots of extra training in these sports. We train with some of the best coaches in the country!

Oliver Saunders, 15

People hear 'sports college' and think it's easy, but that's not true. We start at 8.45 and finish at 3.45, but there are extra sports classes after that, so I don't get home till about 6 p.m. It's hard, but it's great fun!

Jack Barnes, 13

I can't wait to go to school every day. I want to become a professional tennis player, so Caterfield is perfect for me!

Bob Taylor, 12

I love swimming, and the facilities at Caterfield are excellent! My favourite place is the Olympic-size swimming pool. At the end of the school year, we have competitions with other schools. It's fantastic!

Mike Gibson, 14
