**(20 marks)**

**(A)**

The bright colours of birds, the call of monkeys and the hum of insects are common sights and sounds in a tropical rainforest.

Rainforests grow near the Equator, where it is always warm and wet – the perfect habitat for plants and animals.

In Papua New Guinea, scientists have just discovered a new rainforest. It has existed for many thousands of years at the top of a mountain. It has always been very difficult to reach.

1- What are the common sights and sounds in the rainforests?

2- Where do the rainforests grow?

3- Why are the rainforests considered to be the perfect habitat for plants and animals?

(B)

The value of emeralds has been known for centuries and even in ancient times.

The Aztecs in Mexico and the Incas in Peru held them in high regard. However, the oldest emeralds were found in Egypt, near the Red Sea.

Many Egyptian pharaohs took emeralds from the mines there. The mines were actually known as 'Cleopatra's mines' because Cleopatra liked to wear the stones.

People say she wore jewellery made from emeralds and decorated many ornaments with the jewel.

- 1- Referring to the text. Mention two civilisations that held Emeralds in high regards.
- 2- Where were the oldest Emeralds found?
- 3-The writer mentioned the name of the civilization lived in Egypt. What was its name?
