# Welcome to Bridge to Success

Bridge to Success is a twelve-grade course for learners of English as a second language (ESL). The twelve grades range from the beginning of cycle 1 to the end of cycle 3.

Bridge to Success Grade 5 consists of twelve thematic units of study, which include a range of activities, text types and objectives, split over three terms.

The materials reflect the following principles:

- An Emirati focus, with an international perspective. Specifically developed for young learners throughout the United Arab Emirates, the themes, situations and literature covered by Bridge to Success strive to reflect the Emirati context and encourage learners' curiosity about the wider world. This fosters respect and interest in other cultures and leads to awareness of global citizenship.
- An enquiry-based, language-rich approach to learning. Bridge to Success engages children as active, creative learners. As learners participate in a wide variety of curriculum-based activities, they simultaneously acquire content knowledge, develop critical thinking skills and practise English language and literacy. The materials incorporate a 'learning to learn' approach, helping children acquire skills and strategies that will help them approach new learning situations with confidence.

• English for educational success. To meet the challenges of the future, children need to develop facility with both conversational and academic English. From the earliest stage, Bridge to Success addresses both these competencies. Bridge to Success presents authentic listening and reading texts, writing tasks, and end-of-unit projects similar to those learners might encounter in Englishmedium and international schools.

In addition to this Learner's Book, the accompanying Activity Book provides additional support, reinforcement and practice. Comprehensive support for teachers is provided in the Teacher's Guide.

The following icons are used in this Learner's Book:

- 1 pre-recorded listening activity
- pairwork or small group speaking activity (not mediated by teacher)
- write in notebook activity
- [AB] linking activity in Activity Book
- cross-curricular maths activity
- cross-curricular science activity
- 21st links to 21st Century Themes and/or Skills

We hope that you and your learners will enjoy using these materials as much as we enjoyed developing them for you.

# Lesson 5 Looking back

What has been the most difficult?

#### Reading strategy: Preparing to read

Read the questions first. This will make it easier to match the questions because you will know which information to look for in the texts.

#### 2 Read

Read these children's comments about their English lessons. Match three of the questions (1-6) to the comments (a-c).

- 1 What was the most interesting English project? Why?
- 2 Have you enjoyed pair work or group work the most?
- 3 What has been your favourite unit in this book?
- 4 What three things have helped you learn English?
- 5 Which skills have you improved the most: speaking, listening, reading or writing?
- 6 What topics would you like to study next in English?

I think I can speak and understand English much better now because our teacher is always asking us to talk about something before we start reading or writing about it. Sometimes we have to present our ideas to the class.

I really like working with three or four of my friends at the same time. That way we can share ideas and help each other. In my class, most of us enjoy working like this and hardly any of us like working on our own.

Sunil, 9

In my class, all of us keep a notebook for new words. Some of my friends draw pictures next to the words to help them remember. What else? Watching films and TV in English is really good because the images on the screen help you understand what's happening.

A few of us go to see a film in English at the cinema about once a month. John, 10

Zainab, 10

Talk about it 21st 🖂 How do you feel about going back to school after long school holidays? What preparations do you make for your first day back?

#### 2 Listen and read

1 Look at the picture and the title of the play. What problem do you think the children are talking about?

2 Listen to Part 1 of the play and check

#### Part 1

[Ben, Tom and Danny are sitting together looking unhappy.]

Ben: I really don't want to start school again tomorrow.

Danny: Me neither.

Ben: The holidays have been great. I

don't want them to end!

Tom: Me neither.

Ben: I keep thinking about tomorrow and going back to school again. I've a horrible feeling in my stomach and I feel a bit sick!

Danny: Me too!

Ben: I don't want to start a new class with

that new teacher! Tom: Me neither!

Ben: I liked our old class. I want to go

back there!

Danny: Me too!

Ben: I'm going to tell my mum and dad that I'm not going to school tomorrow!

Tom: Me too!

Ben: What? You're going to tell my mum and dad that you're not going to school tomorrow?

**Tom:** Nooo ...! Sorry ... it's just that I feel the same way and I've never told anyone before ... I always feel like this the day before going back to school after the holidays ...

Ben: Me too! Danny: Me too!

#### Part 2

[The three kids nod glumly. Ben's older brother, John, approaches.]

**John:** Hey, what's up? Oh dear! What's the matter?

Ben: Nothing! Nothing at all!

Tom: Nooo ... nothing! We're great, aren't

we?

John: No, you're not! I can tell ...
I know what it is ... you're feeling nervous because you've got to go back to school tomorrow, aren't you?

Danny: No!

Tom: Well, actually, yeah ...

you're right.

John: I thought so. Look, it's okay.

Everyone feels like that the night before. I'm

feeling a bit like that too ...

Ben: Really? But you're 14!

**John:** I know, but I still get that feeling even now. Everyone does! Look, I bet there are loads of kids, all over the country, who are feeling exactly the same way today.

Danny: Do you really think so?

John: Of course! Kids everywhere get this feeling, whatever their age. It's just that no-one admits it! And it's not just kids ...

Ben: You mean ...?

John: Yes! Even adults get it too. Dad told me once that even he gets a bit nervous before he goes back to work after a holiday. He said that he thinks about the great big pile of work waiting for him on his desk ... all the people he has to deal with ... And he's 42!

**Ben:** Well, I suppose it's normal to feel like this if even adults get it ...

Tom: And big brothers ...

**John:** Of course it is! Think of all the good things too – there are good things about going back to school, you know. Try to think of some!

**Danny:** Well, it'll be really good to see all our friends again. It's been ages since we've seen most of them.

**Tom:** And the football season starts when we go back!

# 8 3 🕮 Listen

Listen to Part 1 again and answer the questions.

- 1 How do the children feel? What's the main reason?

#### Word study: Responding and agreeing We

use Me too and Me neither to agree with someone. Me too is used with a positive verb.

I liked our old teacher. Me too.

Me neither is used when not comes before the verb. I do not like pizza. Me neither.

We use Really? to express surprise.

#### **Exclamation marks**

An exclamation mark (!) usually shows a strong feeling, such as surprise, anger or joy. Using an exclamation mark is a bit like shouting or raising your voice when speaking. You should avoid using exclamation marks in formal writing.

Read the following extract quickly. What type of text is it?

#### Thursday 19th March

Mum has made some new house rules today. She said she's not going to tidy our bedrooms or make our beds any more. Her three new rules are:

Rule number 1: we have to make our beds every morning.

Rule number 2: we have to put all our clothes away in the wardrobe.

Rule number 3: no toys can be left on the floor and we can only play computer games when we have finished tidying up.

I couldn't understand how my little brother Marwan took only five minutes to tidy his room when it was such a mess. I took 20 minutes to tidy mine. I went to his bedroom and it looked tidy, but when I opened the wardrobe doors all his clothes and toys fell out on top of me. Mum was very angry, and so was I!

- 3 Read the text again and answer the questions below.
  - 1 The writer's name is Bader. Why do you think his mother decided to make some new house rules?
  - 2 When are Bader and his brother allowed to play computer games?
  - 3 Who was quicker to tidy their room: Bader or his brother, Marwan?

## What is diabetes?

Diabetes means there is too much sugar in the blood. The body can't use the sugar properly and this can cause serious health problems.

#### **Type 1 diabetes**

Children with diabetes usually have type 1 diabetes. The cause is often genetic. This means children can get it from their parents.

#### **Type 2 diabetes**

Type 2 diabetes usually happens to adults. However, many children are now getting this. Type 2 diabetes is often caused by being overweight and not getting enough exercise.

#### Prevention

Type 2 diabetes can be easily prevented. Firstly, it is important to eat a lot of healthy food, so eat plenty of vegetables with meals, and have fruit rather than crisps or chocolate for snacks. Secondly, it is important to get plenty of exercise every day. There are a lot of fun activities that children can do such as cycling, playing ball, swimming and roller-blading.

#### Symptoms

In both types of diabetes there is too much sugar in the blood. This can make people feel thirsty, tired, hungry and have blurred vision.

#### 2 Read

#### Reading strategy: Reading for gist

Read a text quickly to work out the main idea.

Have you ever had a fever, a bad cough, a headache and an aching body all at once? Well, if you have, then you've probably had the flu!

Flu, which is another name for influenza, is caused by a virus and lots of people get it, especially in the winter months. You might think you have a cold instead of the flu because many of the symptoms can be the same, such as a blocked nose, sneezing and coughing, but children with the flu often have a fever and headaches. You don't feel like eating much food either and all your body hurts. The flu can last a week or more.

Catching the flu is very easy. If you are near a person with the flu, who sneezes, coughs or even laughs, then the tiny drops that come out of their mouth can infect you if you breathe them in.

So, how can you stop yourself from getting the flu? First of all, keep away from someone with the flu! Wash your hands regularly with hot water and soap, and don't put your hands to your mouth or nose.

If you catch the flu, you should get a lot of rest and drink plenty of liquids, such as water, juice and soups. You can take some medicine too, but only if your mum or doctor gives it to you to help with your fever and headaches.

# Stone soup

Once there was a young man who travelled around the country looking for work. Times were very hard and he had very little money. One day, feeling tired and hungry, he arrived at a small village. He thought that he might find someone who would give him some food.

He knocked at the door of a house. A woman opened the door. The traveller asked the woman politely for some food, but the woman answered that she had no food at all. The same thing happened at all the houses in the village. Nobody had any food!

However, the traveller had a plan. He knocked on the door of a big house and an old man answered. The traveller asked him if he had a large pot of water that he could use to make a big pot of soup for all the villagers. He was going to make it from a special stone he had found.

The old man helped the traveller build a big fire. The traveller took the stone and put it in the pot of water. As he cooked the soup, he said that the special soup was always better with a little onion and some cabbage to add extra flavour. So the old man gave

him a bag of onions and some cabbage. The traveller added these ingredients to the soup.

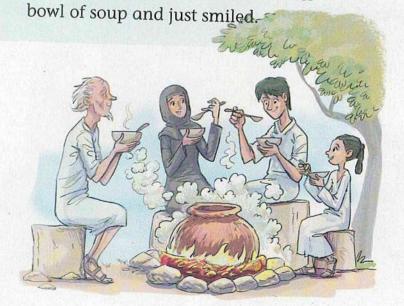

A woman in the next house smelled the soup cooking. She went to see the traveller. He told her that the special soup was always very good, but that a little bit of meat, some carrots and some potatoes would add extra flavour. So the woman gave him a big piece of meat, a bunch of carrots and a sack of potatoes. These ingredients were also added to the soup.

A little girl also smelled the soup and spoke to the traveller. The traveller told the girl that the special soup was always very good, but it would be even better with a few beans and a pinch of salt and pepper. So, the girl gave him a bowl of beans and some salt and pepper and added them to the pot of soup.

Another woman came by after smelling the soup and she added a few mushrooms and some herbs to the soup.

After a while the soup was cooked and everyone had a bowl of delicious stone soup. No-one could believe that such a flavoursome soup could be made from just a stone and some water.

# Lesson 3 Our carbon footprint

Talk about it Look at the pictures in the text.

What do you think they represent? What do you think our carbon footprint is? Why do you think we need to reduce it?

Skim the text to check if your ideas are correct.

# Our carbon footprint

Our carbon footprint is how much CO<sub>2</sub> (carbon dioxide) one person makes each year.

## What produces carbon dioxide?

We use energy (gas or electricity) every day. Your journey to school, your computer, your mobile phone, the lights and heating in your house - all of these things use energy.

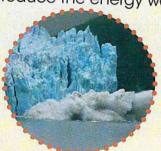

### Why is CO, a problem?

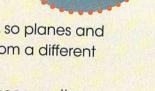

The problem is that we are all producing too much carbon dioxide and some scientists believe that this is making the Earth hotter. This means the ice at the poles of the Earth is melting, which will cause sea levels to rise and places to flood.

# How can we reduce our carbon footprint?

There are many things we can do to reduce the energy we use.

- Try walking to school or cycling instead of going by car.
- Recycle materials such as cans, bottles, paper, glass and cartons. This means less energy is needed to make new things.
- Don't leave lights on in your house.
- Eat food which is grown in your area, so planes and lorries aren't needed to transport it from a different country.
- Plant trees in your garden or school because they absorb CO<sub>2</sub> and release oxygen.

#### Reading strategy: skim

Read a text or part of a text quickly in order to find the main idea.

# Vocabulary

produce: make something

melt: turn to water reduce: make smaller

absorb: take in release: let go rise: go up

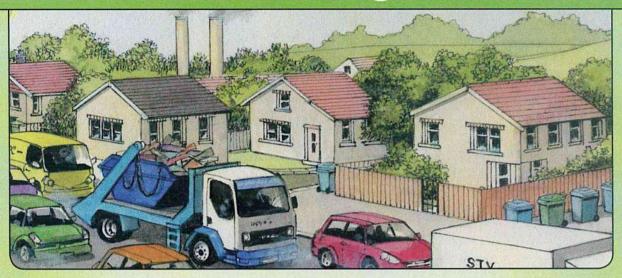

AB

B Read the text and find two reasons why it's important to plant trees.

# Plant a tree and change the future!

Did you know that planting trees is a great way to help the environment?

Trees release oxygen into the air and use carbon dioxide. This makes our air cleaner.

In many countries, people are planting trees to help the environment.

#### **South America**

help the environment.

The world's largest tropical forest is in South
America - the Amazon Rainforest. It makes up
57% of the world's forests and is very important
for the environment. Children
at a school in San Luis, Argentina, have been
learning about carbon footprints and energy
saving, and have been planting more trees to

Since the programme was started, 200 000 trees have been planted in 22 towns across San Luis.

Why plant trees?

- To make homes for animals
- To make the countryside look beautiful
- To help the environment

#### The UK

The Woodland Trust started a 'More Trees, More Good' campaign. They want to plant six million trees over the next 50 years. Schools and businesses are all helping because they know how important it is to plant more trees. Noah, from Birchanger Primary School, helped plant over 50 trees at his school with his friends and teachers. 'It was great fun planting the trees – we all wore our boots and got muddy!'

#### Tree facts

- Trees can live for hundreds of years.
- Trees produce oxygen and reduce the amount of carbon dioxide in the air.
- One large tree can give a day's oxygen for up to four people.

# Lesson 5 Past and present

How has it changed? Look at the two photos of Dubai below. What is different?

### Listening strategy: Identifying opinions

#### 1 Read

# My favourite place

This is the most famous castle in Scotland. It is used in lots of films and posters, as well as on biscuit tins. The castle is on a lush, green island, surrounded by water and huge mountains. To get to the castle, you must use the bridge. The area is famous for its beautiful scenery and interesting animals.

The castle is very popular with tourists. It is smaller than Edinburgh castle, but it is more beautiful. Some of the local animals are very interesting. There are large deer on the hills and lots of colourful birds. There are also dolphins and otters in the water. If you are lucky, you may see the Northern Lights, which are very colourful and turn the sky green and purple and orange.

I think this is the most beautiful place I've ever seen. I'm not very keen on the animals, but I would like to walk on the mountains, sleep in the castle and hopefully see the Northern Lights. I think it would be very exciting.

# **The Lost City**

Jassim and Hamad walked a long way.

'I'm getting tired,' Jassim said. 'Where are we going anyway?'

'We are going to find a city, a lost city. There are wonderful surprises for whoever finds the ancient city,' replied Hamad.

'Does anyone live there?' Jassim asked.

'Not anymore,' said Hamad.

'Why not?' asked Jassim.

'Because it's too far from all the modern cities and roads.

In the past it was the busiest city in all of the Middle East,' replied Hamad.

'What kind of surprises are there? Good surprises?' Jassim asked. 'Beautiful surprises,' Hamad smiled. 'Come.'

'Are there date trees in the Lost City?' Jassim asked.

'A lot,' replied Hamad.

'Good. Let's hurry up then. I'm very hungry,' said Jassim.

- 4 Read the first part again and answer the questions below. Then read the rest of the text and answer the questions that follow it.
  - 1 The Lost City is a far away b easy to find c on a busy road.
  - 2 The city a is not a safe place b has many surprises c is very crowded.

After several hours, Hamad stopped. 'See the mountains ahead? We are nearly there. Another hour.'

Just then they heard a sound. 'What was that?' Jassim asked.

'A tiger, but it isn't near us. I can hear its roar is in the tall mountains.' 'There it is!

There is the Lost City! We have found it at last,' Hamad said.

'It is amazing, Hamad. The walls are high and the roofs of the buildings shine in the sunshine. What's in the city?' Jassim asked.

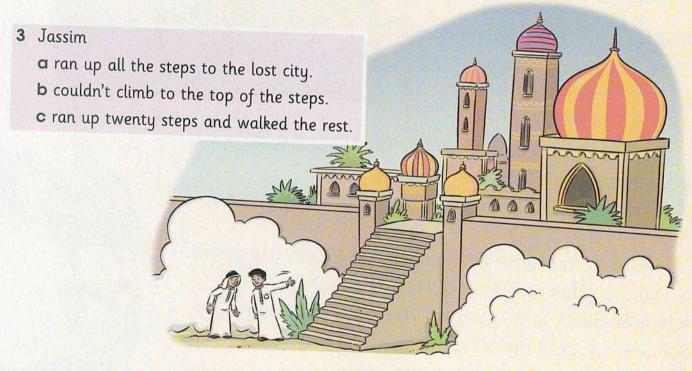

'There is much gold and silver. We must hurry,' Hamad said.

'How do we get inside?' Jassim asked.

'We must climb these steps,' Hamad said, pointing to some steps. Jassim laughed and ran up the steps. After he'd climbed twenty of

them he stopped and took a few breaths. 'I think I'll walk slowly up the rest of them,' he said.

'Look! We must go there!' Hamad said and he pointed to the centre of the city. Then Hamad looked at his friend and said in a low voice, 'We need to be quiet. Don't touch anything until I say so.'

5 Hamad and Jassim want to go to the centre of the Lost City. What do you think will happen next?

# Lesson 10 The Lost City - Part 2

#### 55 1 Read and listen

Think about the predictions you made at the end of Lesson 10.

Read and listen to the story and answer the questions. Were your predictions correct?

Hamad and Jassim continued their journey to the centre of the Lost City.

'This is where we shall find our surprise,' Hamad said.

When they reached the centre of the city, they found a huge, golden drum.

'Look at that!' said Jassim. 'Can I bang the drum?' he asked.

'Yes,' said his friend.

Jassim picked up a stick and hit the drum.

- 1 Where did the boys find the drum?
  - a At the top of the steps.
  - b Near a building.
  - c In the centre of the city.

The drum was very loud. When the noise stopped, everything went very quiet.

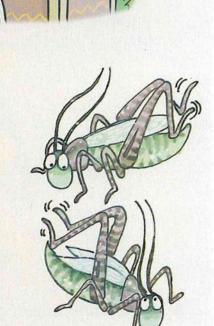

Then the crickets began to chirp. 'Listen,' Hamad said. 'It is beautiful.'

'When do we get the gold and silver?' Jassim whispered.

Hamad didn't answer him. He was listening to the beautiful music of the crickets. The two boys stood quietly for an hour, until the crickets stopped singing.

'Our surprise?' Jassim whispered again.

'Jassim, that was our surprise. Nobody in the world has heard anything that beautiful before. It is our **reward** for our journey,' Hamad said.

#### 2 Jassim's surprise was

a the drum. b the beautiful music of the crickets. c the gold and silver.

'What about the gold and silver?' Jassim asked.

'We cannot touch those things. They belong to the people who once lived in this city. You can eat all the dates you want, but the rest must stay in the city,' Hamad explained.

When his friend mentioned dates, Jassim forgot all about the gold and silver. 'Dates!' he cried, and ran off to search for his prize.
