Part 1

Read the story about Ahmed. Then read the sentences and circle if they are **True** or **False**. There is one example.

Ahmed's Day in Dubai

I was so excited! This was my first visit to Dubai and I couldn't sleep the night before. We left very early in the morning. First, we visited my father's friend, who was very kind and funny. I hope we can visit him again.

After that, we went into the city and walked around. Suddenly, we were in a busy street with people everywhere. It was great! Some young men were playing drums and I went to look at them. When I turned around, my family was not there!

I walked into the nearby market, but I could not see them. I went back onto the street and saw some boys playing with their football, but I couldn't see my family. Suddenly, a young man with a kind face and short, straight hair said to me, 'Are you OK? Are you lost?' 'Yes,' I replied sadly. 'Ah,' he said. 'There is a man shouting for his son. Are you Ahmed?' 'Yes!' I shouted happily.

Five minutes later, I was with my wonderful family again, and I was so happy. My father gave me a big hug and said, 'Ahmed, be careful and stay close! If not, you will get lost again!'

Example: Ahmed has been to Dubai many times.

True **False**

1 Ahmed didn't like his father's friend.

True **False**

2 Ahmed watched people playing drums.

True **False**

3 Ahmed saw some boys playing football.

True **False**

4 A kind old man helped Ahmed.

True **False**

5 Ahmed should be careful and stay close to his father.

True **False**

Part 2

Read the text about diabetes. Then complete the notes. Write ONE word from the text in each space. There is one example.

What is Diabetes?

Diabetes can mean there is too much sugar in the blood. The body can't use the sugar, and this can cause serious health problems.

Children with diabetes usually have type 1. The cause is often genetic. This means children can get it from their parents.

Type 2 diabetes usually happens to adults. However, many children are now getting this. Type 2 diabetes is often caused by being overweight and not getting enough exercise.

Type 2 diabetes can be easily stopped. It is important to eat a lot of healthy food. So, eat plenty of vegetables with your meals. Fruit is better than crisps or chocolate. It is also important to get lots of exercise every day. There are a lot of fun activities children can do. Cycling, playing ball, swimming, and roller-blading are some of them.

Diabetes can make people feel thirsty, tired and hungry. It can also cause blurred vision.

Diabetes Report:

Diabetes is: too much sugar in the blood **(Example)**

Type 1:

cause: _____ **(6)**

Type 2:

usually only _____ have this **(7)**

cause: being _____ and not enough exercise **(8)**
