

Read the following paragraphs then answer the questions

Today, we climbed to the top of Hekla. We didn't go into the crater, though. There was snow on the ground but in some places the rocks were warm. The snow was melting and the rocks were steaming. Our guide picked up a small rock and told us about it. When the volcano erupts, the rock from deep under the ground comes out of the volcano. The rock is so hot that it is liquid. It turns down the slides of the volcano then it cools and goes hard. The rocks feel very rough.

1. What is Hekla? Volcano (1 mark)
2. The underlined pronoun it line 6 refers to Volcano (0.5 )
