## Twins Day

France is the third biggest country in Europe and it's got a lot of different festivals. They've got a film festival in Cannes, music festivals in Paris and in Lyon, and there's a festival of lights!

But, perhaps one of the most unusual festivals of all is 'Deux et Plus' or 'Festival of Twins' on 15th August in the small town of Pleucadeuc in the northwest of France. More than 1,000 twins, triplets and quadruplets from all over the world meet in one place! Some look the same and some look different, some even speak their own language! Imagine that!

## LEARN TO LEARN

- a eye colour.    b fingerprints.    c hair colour.

Find two more interesting facts about twins.

Choose your favourite fact and write a question for your partner to answer.

QUALITY! The Culture Project Teacher's Resource Bank

The festival has got its own traditions. Each twin, triplet, or quadruplet is usually in the same clothes with the same hairstyle! There are also a lot of interesting activities to do, like face painting, watching live music, dancing and playing fun games.

Geoffrey and Guillaume have got photos from their first visit to the festival of twins as babies. Now they are 13! 'It's a great day! We've got a lot of new friends this year.' Their new friends have all got the same DNA and one thing in common – they've all got brothers or sisters that look the same – or almost!!

### A profile

#### A day in the life of ...

This is Amir from the Bajau tribe in Borneo. His life is unusual. He lives with his family in a house – but it's in the water. Amir doesn't know his age or the date of his birthday. The Bajau tribe don't count days and hours; they use the movement of the sea to count time.

Every morning, Amir wakes up early, but he doesn't have breakfast. He and his father go out in their boat. They swim

in the water to look for food for the day. Amir and the people in his tribe can see really well under water. Amir catches a fish for breakfast and his father catches an octopus for dinner.

After breakfast, Amir usually meets his friends. They don't go to school and they don't study subjects like English. The older Bajau people teach them how to make nets and build boats.

In the afternoons, Amir and his friends dive into the water from bridges and they play in the water, too. It's their favourite place!

In the evenings, Amir's mother and sisters cook the octopus and then the family has dinner together. It's always delicious!

Our survey is about <sup>1</sup> leisure activities on Saturday mornings. The purpose of our survey is to understand the leisure activities people do because we want to prepare an end of year party. It is good to know what people like!

Here are the results.

- There are 30 <sup>2</sup> \_\_\_\_\_ in our class. They are all between 12 and 13 years old. 16 are <sup>3</sup> \_\_\_\_\_ and 14 are boys.

- In our opinion, the <sup>5</sup> \_\_\_\_\_ are interesting. Students do a variety of different activities.
- Only three students stay in bed late on Saturday mornings. We think this is <sup>6</sup> \_\_\_\_\_, because we know we’re all tired after a week at school and we all like to sleep. Teenagers need between nine and ten hours sleep a night but we know leisure time is important for us, too.

### A webpage

Rumba, mambo, and salsa are just some of the dance styles that come from Cuba, and dancers are big stars in Cuba. The Cuban National Ballet School in Havana **trains** boys and girls to do **ballet** and many of the students become the world's **top** ballet dancers.

Children usually start at the school when they are ten years old, for five years of training. Then they sometimes train for three and a half more years at a professional level.

Oscar is a student there. 'It's **tough** and sometimes I just want to do nothing. I can dance and read music quite well, but I can't play the piano at all. My best friend Carlos can dance very well. ## Welcome to my school day!

My school day starts at 8.30 am. When I arrive, I take off my shoes and I put them in my locker. We can't wear outdoor shoes at school so we put on special **indoor** shoes.

We have an assembly with the principal in the main hall on Monday mornings and we

have six 50-minute classes every day. My best subjects are Japanese, science and art.

Lunchtime starts at 12.30 pm. We don't eat lunch in a canteen – we stay in our classroom. Different students **serve** the meal every day and a teacher eats with us.

When classes end at 3.30, we all stay to clean and tidy up the

classrooms and throw away the **rubbish**. I don't mind doing these jobs. It's an important part of school life and I like having the responsibility.

Nearly everyone belongs to an after-school club. One of my clubs meets on Mondays and Thursdays to learn about traditional Japanese arts like Shodo and Haiku. Haiku is a type of Japanese poetry.

Shodo is writing Japanese characters (*kanji*). I can write some characters quite well now.

My other club is the Go club. It's on Tuesdays and Fridays. Go is a Japanese board game and it's more than 2,500 years old. I love playing it, but when I leave school after a long, busy day at 5.30 I'm usually **exhausted**.

I'm wearing big black boots but Akiko isn't wearing the same boots. She's wearing zori (they're Japanese sandals).

We're also people watching from the café! There are a lot of different looks. There's a boy outside the café.

He's wearing a black and white striped T-shirt, a red shirt, tight jeans, a green jacket and trainers. What a cool retro sporty look! What do you think?

## Special Days

Weddings are a wonderful time for families and friends to celebrate together and to wear special clothes. This week, Amrit is talking about his cousin's Hindu wedding in India and some of their traditions.

**Q:** What are Hindu weddings like?

**A:** They're incredible! There's a lot of amazing food, music and dancing. They're always very colourful events because everyone wears beautiful clothes. They last for three days.

**Q: What does the bride wear?**

**A:** The bride usually wears a lehenga (a long skirt with a top) and a long scarf. Red is very popular at Hindu weddings. It's a powerful colour because in India it symbolises love and new life. In this photo, my cousin Mishal is wearing a red and gold lehenga. She's also wearing special wedding accessories: a gold necklace, earrings, rings on her fingers and toes, and lots of red and gold bracelets.

**Q: What does the groom wear?**

**A:** The groom usually wears a sherwani (a long jacket with gold designs on it), a pair of trousers and special wedding shoes. My cousin's new husband, Ranjit, is also wearing a red turban.

**Q: Are there any other special wedding traditions?**

**A:** There are lots, but my favourite is joota chupai – a member of the bride's family steals the groom's wedding shoes and hides them. It's great fun! In this photo, my aunt Jaz is holding Ranjit's shoes and everyone is laughing.

This is a team game with six soft balls. It's popular in PE classes in the UK. Players <sup>4</sup>*lift* / *run* fast to pick up balls from the middle of the court. Then they <sup>5</sup>*dive* / *throw* their balls at the other team. If a ball <sup>6</sup>*hits* / *jumps* someone, that person is 'out'. Players can <sup>7</sup>*catch* / *score* a ball in their hands, but if it <sup>8</sup>*climbs* / *bounces* off another player, they can't use it.

## LEARN TO ... WRITE EXAMPLE SENTENCES

Example sentences help you understand and remember vocabulary

- 1 Read Peiyu's blog. How does she remember new words? Why?

<https://peiyuenglishlearningblog.co.uk>

**Today's tip**  
**Peiyu's English learning blog**  
Remembering new words

When I learn new words, I use them in example sentences. I think this is better than writing them in my language. When I write sentences, I think about what the word means and this helps me to remember it.

Also, when you write example sentences, the meaning is easier to remember later because the other words in the sentence can help you. I try to write funny sentences or sentences about me and my friends because it's easier to remember the sentences.

Look at my notebook! What do you think?

My parents do yoga in the garden.

I run to school when I'm late.

- 2 Circle the example sentences you prefer, a or b. Compare your answers with a partner and say why.

- 1 bananas  
a Bananas are nice.  
**b** Bananas are a long yellow fruit.

*I prefer example sentence b because the words 'long', 'yellow' and 'fruit' help you remember what bananas are.*

- 2 kick  
a In football, players kick a ball.  
b They kick it.
- 3 rugby  
a Rugby is my grandma's favourite sport.  
b Rugby is boring.
- 4 throw  
a Throw it!  
b My baby sister throws her food at me.

## OWN IT!

# The Girl and the Golden Eagle

Can you imagine riding a horse in temperatures of  $-50^{\circ}\text{C}$  with a huge eagle on your arm?

The ancient tradition of eagle hunting started thousands of years ago in Mongolia. Traditionally, it was only for boys in Mongolia and this tradition continues today. Boys learn to hunt when they are only 13. They use eagles because they can fly up to 320 kph and can see animals from more than four kilometres away. There are about 400 male eagle hunters today. But no 13-year-old girls ... until now.

The 2016 film, *The Eagle Huntress*, tells the story of Aisholpan. When she was young, Aisholpan took care of her father's eagle but she really wanted to be an eagle hunter

like her father. So she went to the high Altai Mountains with her father to find a baby eagle to train. It wasn't easy. The climb to the eagle nest was difficult and dangerous. But Aisholpan did it. She found her baby eagle!

Aisholpan's father became her trainer. But was Aisholpan strong enough to hunt with the huge bird in freezing temperatures? Yes, because she was determined to succeed.

In 2016, Aisholpan competed in the Golden Eagle Festival. She was the first Mongolian girl to enter the competition. There were 70 competitors. She was the youngest and the only girl. And guess what? Her eagle won. What an amazing achievement!

## READING

### An online travel article

Last week, our travel writer, Marisa Castillo, visited the town of Villa Epecuén in Argentina and met its only inhabitant, Pablo Novak.

Pablo grew up in Villa Epecuén and until 1985 he had a normal family life there. On 10th November 1985, after weeks of heavy rain, a lake **flooded** the town and it gradually disappeared under 10 metres of water. All of the town's 1,500 **residents** left. In 2009, the water began to go down and Pablo decided to return.

Now he and his dogs live in an **abandoned** house with no electricity. One of his 21 grandchildren visits him every day and brings him food. He doesn't mind being the only person there. 'I am OK here. I am just alone. I read the newspaper. And I always think of the town's golden days,' Pablo said.

His **memories** of those golden days brought the town to life for me. As we walked past empty buildings, those places suddenly became family homes, noisy swimming pools, hotels full of **tourists** and busy car parks.

#### Comments

**Libby:** Did Pablo and the other residents move far away?

**Marisa:** No, they didn't. They moved to a town called Carhué about 7 km away.

**Luca:** 🍌 Cool story! Did Pablo's wife want to go back to Villa Epecuén with him?

**Marisa:** No, she didn't. His wife and family started a new life in Carhué.

1 Look at the photo of the town. What do you think happened?

2 Read the article and check your answers to Exercise 1.

3 Find out what the words in **bold** in the article mean.

4 Read the article again and circle the correct answer.

1 Until 1985, Pablo lived ... in Villa Epecuén.

- a with his family  
 b on his own  
 c with one of his grandchildren

2 When Villa Epecuén flooded, ... of the residents stayed.

- a some  b none  c all

3 Pablo now lives ...

- a with his family  
 b with a friend and his dogs  
 c alone with his dogs

4 Pablo ... being the only person in Villa Epecuén.

- a hates  b loves  c doesn't mind

5 Pablo spends time each day ...

- a reading the newspaper  
 b shopping for food  
 c sitting in the train station

6 Pablo has got ... memories of the town in the past.

- a sad  b happy  c no

#### Voice it!

## An email

Hi Javi,

- It was great to hear from you. I'm really excited about next week, too. I think you'll love England and Wales. It's a bit different from Spain.
- Here are the arrangements. We're spending the weekend at home in Chester. We're going to sleep in a tent in the garden. It won't rain. It never rains in August! Honest! 🇬🇧

## Everyday maths

Your maths teacher gives you homework on fractions. 'I don't need **fractions** in real life,' you think. 'What's the point?'. In fact, maths is everywhere.

### Telling the time

'Excuse me, what time is it?' someone asks. You look at your phone. 'It's a quarter to four,' you reply. This is a really mathematical sentence, and you need to know about fractions! **How many minutes are there in the fractions 'a quarter', 'half' and 'three-quarters'?**

### Shopping

You want some new clothes, so you go shopping. You see something nice and a sign says there is 40% off the original price of £20. Then you see another offer ... 50% off the original price of £26. **Which item is cheaper?** It helps to know how **percentages** work before you waste money!

### Cooking

You want to make your favourite biscuits. The recipe asks for two tablespoons of sugar, but you only have a teaspoon. **How many teaspoons make two tablespoons?** You may know the answer, but that's because you understand maths and **measurements**!

We use maths every day of our lives. So, the next time your maths teacher gives you homework, make sure you do it!

## Foodscapes

There are many works of art about food. But there are also times when art is food. Literally.

Look at the photo. What can you see? There are some houses and trees and there are a lot of balloons in the sky. It is a beautiful **landscape!**

Now look again. Those aren't trees ... they are pieces of broccoli! And those balloons are all different types of fruit!

Don't worry, you are not dreaming.

Photographer Carl Warner loves making landscapes out of food because he loves their connection with the natural world. He calls them 'foodscapes' and the results are amazing.

Warner takes three days to prepare a photograph. First, he decides which ingredients to use. Then he builds the **scene** with his team. Next, he takes photos in **layers**. There is a lot of fresh food, so he works quickly under the hot lights. What happens to the food at the end of a session? He shares it with his team, of course!

First, Warner wants to make people smile. However, he also wants to **promote** a good diet. With these **surreal** images, he makes us think about food in a different way.

What's the fastest muscle in the body?

- a eye   b tongue   c finger

Find an interesting fact about muscles. Write a question for your partner to answer.

## FAST OR SLOW?

Meet Olympic sportspeople Olga and Maya. They have a lot in common, but they are also very different.

Olga **competes** in an event with three different parts: the triathlon. She swims 1.5 km, then cycles 40 km and finishes with a 10-km run!

Maya runs the 100-metre race. She is much faster than Olga. But she cannot do a triathlon.

Olga has got more **stamina** and Maya has got more speed. But why? What's different inside their bodies?

The difference is in the types of muscles they use.

### Type I muscle tissue (slow-twitch)

This muscle doesn't have a lot of power, but it can keep going. Marathon runners use Type I muscle tissue.

### Type II muscle tissue (fast-twitch)

This is much more **powerful**, but it gets tired fast – in less than a minute. Sprinters use Type II muscle tissue.

Now, the difference is obvious. Olga trains her slow-twitch muscles more and Maya has a lot more fast-twitch muscle.

So, which is better?

Which muscles have you got more of?

## The Lascaux Cave Paintings

1

On 12 September, 1940 four teenage boys made an amazing discovery. What do you think they discovered? Read on to find out ...

2

The boys were in the woods near the village of Montignac, France. One of them, Marcel Ravidat, saw a hole in the ground a few days earlier. They believed it was the entrance to a secret tunnel that people in the village talked about.

3

First, they looked inside the hole. Then they threw stones through the **opening** to see how **deep** it was. They decided to go in and carefully climbed down fifteen metres. At the bottom there was a cave. They were amazed by what they saw.

4

There were **incredible** paintings all over the walls, including hundreds of pictures of red, black, brown and yellow animals. The animals looked like they were moving in the dark.

5

The boys were excited but also worried about getting out. They left the cave and promised to keep their **discovery** a secret.

6

No, the whole village soon found out, and archaeologists came to visit. The cave paintings were about 17,000 years old. Can you imagine that? They are still some of the best examples of prehistoric art ever discovered.
