

Part 2

Read the text about the Arabian leopard and choose the correct answers.

The first one is done for you.

One of the most beautiful animals in the United Arab Emirates is the Arabian leopard. It can only be seen at night because it sleeps during the day. The Arabian leopard is light brown and white with the colour yellow only on its back. It also has lots of black spots all over its body. The spots and colour of the leopard help camouflage it in the rocks of the mountains. Its long tail helps the leopard when climbing or sitting in trees. The leopard needs large areas to hunt for food. Baby Arabian leopards are called cubs. Sadly, not many Arabian leopards are left in the UAE. We must work to save them.
